Narrative: I received a call from County Communications about 5:45 pm about a diesel spill due to a vehicle collision at the intersection of Highway 101 (Northbound) and Spence Road in Salinas. I arrived at the scene, the car involved was already on top of a flatbed tow truck and the big rig truck was parked by Spence Road. I reported to the IC, Chief Mike Roberts, he indicated that the big rig's diesel tank was leaking its contents on the dirt road on the side of Spence Road. I checked and found out the diesel tank was actively leaking and created a pool that collected on the dirt side of Spence Road. I requested CHP to call Caltrans to block the road to complete the cleanup by the responsible party's contractor (USA Towing). The spill on the road was completed then I instructed the cleanup crew to pump out the diesel from the pool that was spilled from the truck's tank, which yielded 2 55-gallon drums and half of another drum. I requested Caltrans to leave some of their cones to mark the spill, then I put a yellow tape by the contaminated soil. I cleared the scene at 11 PM. I will follow up with the responsible party to clean up the contaminated soil at the side of Spence Road.
