**Narrative:** On August 23, 2021 the Environmental Health Bureau received notification from Cal OES that approximately 1/2 gallon of oily bilge water had been released from a boat in Breakwater Cove in Monterey causing a sheen on the water surface. Crews from Monterey Bay Boatworks investigated and identified the responsible boat. The boat owner was contacted, the boat was surrounded with hydrophobic booms and the contaminated bilge pumped out. The boat was later towed in for repairs. The contaminated booms will be included as part of Monterey Bay Boatworks hazardous waste stream.

**Incident Status:**

Mitigated No Further Action  Health Department Follow-up Warranted

Referred to other Agency or Department for follow-up:
