

BOAT DOCK LICENSE NOTICE OF SALE AND RELEASE OF LIABILITY

(Please print clearly or fill-in electronically)

PURPOSE OF THE FORM

In 1972, the Monterey County Water Resources Agency (MCWRA) established a boat dock licensing program for Nacimiento Reservoir. The program was developed to support the recreational use of boat docks on the reservoir and to monitor any hazardous conditions which may arise. It is the MCWRA's responsibility to ensure that all docks on the reservoir comply with current dock licensing conditions. The licensing program monitors docks which may present a hazard to reservoir navigation or to the outlet structures of the reservoir's dam. Each dock license must be renewed on or before April 1 of each licensing year during which the dock is left, reinstalled, or floated on the waters of Nacimiento Reservoir. All licensed docks are inspected annually by the MCWRA.

Notice of Sale and Release of Liability

The Notice of Sale and Release of Liability is used to notify the MCWRA when you have sold or changed the responsibility for your boat dock to another party. It is used only when ownership of the boat dock has changed. Boat dock licenses are non-transferrable, and a new license shall be applied for and issued for the boat dock. Reporting the sale or change in responsibility for a boat dock to the MCWRA does not constitute a transfer of the license. The license is not permanently transferred out of your name until the MCWRA receives a completed application for notice of sale and payment of the appropriate fees and insurance submittal from the new owner.
