

Monterey County Community Action Partnership (MCCAP) network of service providers changes each two-year CSBG funding cycle in response to our biennial needs assessment. As such, short term goals during this period are relatively stable. However, our CAA and network of service providers continually made adjustments in response to emergent community needs and barriers to services.

During 2020-2021 cycle, MCCAP responded, and continues to respond, quickly and creatively to the effects of COVID-19 both on our community and service providers by leveraging our agency's network and emergency funding. MCCAP's 2018-2020 strategic plan emphasized data, contract monitoring, governance, and advocacy goals to strengthen agency effectiveness, client outcomes and satisfaction, and network synergies. MCCAP's 2020 management accomplishments and innovative solutions specifically draw on this foundation.

Our administrative infrastructure facilitated the COVID-19 response strategies our agency has been able to employ. MCCAP drew on its partnerships, contract monitoring process, and advocacy work to not only ensure service continuity, but also deploy COVID-19 responses targeting low-income residents. Critical operational pivots involved implementing administrative flexibilities, service provision adaptations, remote governance, advocacy to expand access to services, and contract amendments to direct and expedite emergency funding allocations. These pivots along with additional staff time dedicated to contractor support continued throughout 2021 including the RFP process for contacting 2022-2023 service providers.

Fundamental to operational continuity during COVID-19, was pivoting to remote administration and governance. As a public agency, MCCAP initially had to overcome major challenges with electronic communications and meeting platforms. Our agency did not previously utilize DocuSign and required wet copies for contracts and invoices. As such, our agency had to redesign all regular administrative processes, policies, and interactions internally and with external partners, which included supporting and accommodating subcontractors struggling to adapt remote operations. In addition, MCCAP is required to comply with state law with respect to public meetings. MCCAP acted on Governor's Executive Order to reorganize and maintain Community Action Commission engagement, utilizing our website and social media to ensure transparency and encourage public access to remote meetings. Staff provided commissioners with training and phone support to ensure continuity of governance. At the same time, MCCAP immediately transitioned to Zoom for regular Commission meetings as well as provider network CAP Community Circle (CCC) meetings without any lapse in communications. This allowed MCCAP to stay abreast of agency and client challenges, as well as communicate state and federal funding opportunities.

However, variability in COVID rates and responses affected staff assignments, public hearings, commissioner engagement, subcontractor capacity, program operations, community needs, and community resources. To this day, our agency is relying heavily on our contract monitoring process and CAP Community Circle meetings to track and communicate ongoing changes in community needs and adapt service provision strategies. Contract administration and the monitoring process involve multiple interactions with agencies that includes fiscal monitoring, reporting mid-year services and reporting, customer surveys, site-visits, and regular provider meetings to facilitate network coordination. These monitoring activities have served as important tools to check in with subcontractors individually and as a group to adapt service provision redirect resources. As such, we've been able to assess and accommodate specific challenges faced by each of our eleven subcontractors. These challenges have involved increased or decreased demand of particular services, adapting service delivery, and/or adjusting agency operations. Budget modifications have been a tool to help implement adaptive strategies in response effects of COVID-19 clients and agency operations. Similarly, this year's site-visits, while conducted via ZOOM, were an opportunity to for an in-depth check-in with agencies to identify and address opportunities and challenges for each individual agency.

Although COVID-19 continues to present many operational challenges, MCCAP's major accomplishments remain its ability to adapt administrative operations and service provision through its contract monitoring process and CCC Network communications.

## Innovative Solutions Highlights

Two examples of innovative solutions to address the causes and conditions of poverty in Monterey County involved how MCCAP deployed CSBG CARES funding and distributed the County's initial PPE allotment. The resulting collaboration was used as a model for participating agencies and a second successful, much needed, PPE distribution to our County's new homeless shelter.

Serving a county with a large proportion of vulnerable residents and limited resources, CSBG CARES funding was an urgently needed tool for responding to the effects of COVID-19 both on our community & service providers. Notably, as a public agency, MCCAP is subject to layers of county Procurement, Contracts, Fiscal, and Board of Supervisor procedures in addition to state and federal funding requirements. Additionally, MCCAP provides services to the community via its network of service providers rather than directly with central control. Thus, our agency was presented with many hurdles in expediting and directing CSBG CARES funding and PPE distribution. MCCAP's innovative approach to overcoming obstacles to distributing CARES funding and PPE involved leveraging our 11 agency, county-wide 2020 CSBG service provider network.

In the case of CARES Funding, MCCAP reached out to the existing CSBG network to identify client and agency needs and solicit proposals for addressing COVID-19 challenges. MCCAP surveyed the network to determine what providers needed to continue existing services, where there was an increased demand for services, and whether new service needs were emerging. Next, MCCAP analyzed proposed budgets and agency capacity to implement strategies. Finally, MCCAP amended 2020 contracts to expand services and extend contract period. Since MCCAP was in the first year of a funding cycle, our strategy not only targeted the intended demographic, but also streamlined the process for subcontracting 2020-21 CARES and 2021 CSBG funding by eliminating the administrative processes associated with drafting 22 new contracts. This process alleviated capacity issues for our contractors in 2021 and also led our agency to streamline our 2021 RFP process for our 2022-2023 funding cycle, which generated interesting proposals from a range of agencies well aligned with the current needs assessment, economic environment, and operational challenges presented by COVID.

Similarly, the state's PPE shipment for CAA's was an important and much needed resource for partners serving as essential workers providing direct services. Once the Supply Bank secured a drop-off site, individual agency orders needed to be coordinated, pallets needed to be broken down, and delivery/pick up arranged. The logistical problems for MCCAP centered on our agency's limited capacity and the lack of a centralized coordination. MCCAP has a staff of three, all who currently work remotely. Additionally, Monterey County has warehouse sites, but does not have staff to receive or distribute PPE. To complicate matters more, MCCAP's 11 subcontractors are dispersed geographically and are too over-capacity to coordinate the PPE shipments or pick up their own agency's order. As an alternative strategy, MCCAP secured support from two of our 2020-21 subcontractors --the Food Bank of Monterey County (FBMC) and Turning Point of Central California (TPOCC)--who helped coordinate receiving and distributing the PPE shipment for the entire network. This partnership was replicated for subsequent PPE deliveries in 2021 to the mutual benefit of partner agencies. The effects of this innovative network wide partnership are multiple.

Since many of our local agencies are operating beyond capacity and have diverted precious resources from programs to operate safely, their staff and clients benefited from the free PPE delivered directly to their service sites. Just as importantly, TPOCC's youth employment program had been greatly impacted by COVID-19 at a time when youth needed job training opportunities even more than ever. TPOCC's youth employment and leadership program worked with MCCAP staff to communicate with service providers; created a google spreadsheet to share information about PPE items and amounts; assembled orders and allocated PPE; and coordinated deliveries directly to each agency. Centrally located geographically, the FBMC provided the warehouse, storage, and warehouse staff to receive pallets and provide a workspace for the youth to break down and organize individual orders for each partner agency. This was an opportunity for our local food bank, which typically focuses primarily on emergency food resources, was able to provide support to the broader service provider network.

The effects of COVID-19 on our community has increased the stressors faced by our most vulnerable residents. The operational environment presented by COVID-19 has also been especially challenging on our service providers. These two examples illustrate how our agency and extended network have continued to find creative and innovative ways to support one another as we respond to these many of these challenges.

## **State and CSBG Eligible Entity Continuous Improvement**

Data management and contract monitoring are two broad areas of ongoing improvement for our agency. These two areas represent major strategic goals and comprise multi-year strategies and benchmarks. The principal objective of these particular continuous improvements is to increase our network's performance, overall impact, and ability to assess performance. As mentioned in B.5, the improved infrastructure in these two areas contributed to MCCAP's 2020 management accomplishments and supported the agency's ability to execute innovative solutions summarized in B.6.

In 2020, MCCAP benefitted from the implementation of data management and monitoring infrastructure that commenced in 2018. MCCAP launched a new monitoring tool in 2019 and updated monitoring policy and procedures in 2020. Another important management accomplishment for MCCAP in 2019 were achievements made in modernizing data collection procedures and improving data quality by building on data quality and collection strategies initiated in 2018. Moving into 2021, 11 subcontractors set up CAP plans and completed end of year reports using CSG's Engage software and reporting tools. Thus, for the 2020 annual report will be the first time MCCAP will be able to deduplicate client demographic data for 7 of 11 agencies. And, building on current efforts, MCCAP will be able to deduplicate client demographics across our entire service network, except for the local food bank, by 2021. For 2021, MCCAP was able to deduplicate demographic data for 7 of our 11 agencies. Several agencies have gone on to improve their own data management capacity and to integrate HMIS. For 2022, MCCAP will continue data improvement and hopes to develop a data bridge that will improve data sharing further by addressing agency turnover (every two years) the fact that each agency uses different case management software or data management methods. This is our next step in getting a clearer understanding of county-wide impact.

In the 2018-2020 strategic plan, data collection was identified as an immediate priority both for accurate community needs assessments and tracking community-wide impact. In 2018, MCCAP utilized Community Service Block Grant (CSBG) discretionary funds to contract a data management system through the Community Software Group (CSG). The acquisition and full implementation of the new data management system will expedite the timely and accurate collection of relevant data, improve the ability to effectively track and monitor goals and outcomes, and streamline required reporting for subcontractors. However, the discretionary funding and County approval process made it impractical to use Engage software for reporting at the end of the 2018-2019 CAP contract cycle. Nevertheless, MCCAP was able to make great strides in our usage and alignment of data throughout the CAP planning cycle, improving consistency across the RFP, contract, program monitoring and reporting processes.

At the end of 2019 and beginning of 2020, the 11 MCCAP subcontractors comprising our service provider network were trained to use Engage software for case management and reporting. In addition to their annual reports, agencies reported mid-year outcomes, which provided an added monitoring element for our biennial site visits. 2020 was the first year MCCAP was able to capture deduplicated demographic data across multiple agencies. In addition, 2021 is the first year our agencies were able to enter their projected services and outcomes for the year, which will be consolidated into MCCAP's agency-wide CAP plan.

Monitoring and data management not only go hand-in-hand for effective management, but also supported critical administrative pivots that were made in 2020 to accommodate operational challenges presented by COVID-19. Site Visits and mid-year reporting are two tools employed in our monitoring process. Both facilitated communications with subcontractors about their service delivery challenges and aided our ability to identify individualized strategies to modify services and/or service delivery. As such, MCCAP was able to work with every one of our agencies individually to support appropriate modifications that ensured successful execution of 11 service contracts.

Overall, MCCAP's ongoing monitoring and data management improvements have contributed to administrative effectiveness, as well as flexibility in response to challenges presented by COVID-19.

| A.1. | CSBG Eligible Entity Reporting Period | Date Range            |
|------|---------------------------------------|-----------------------|
|      | Reporting Period                      | 1/1/2021 - 12/31/2021 |

| A.2.  | CSBG Expenditures Domains   | CSBG Funds     |
|-------|---|----------------|
| A.2a. | Employment  | \$0.00         |
| A.2b. | Education and Cognitive Development   | \$50,000.00    |
| A.2c. | Income, Infrastructure, and Asset Building  | \$40,000.00    |
| A.2d. | Housing   | \$40,000.00    |
| A.2e. | Health and Social/ Behavioral Development(includes nutrition)   | \$248,600.00   |
| A.2f. | Civic Engagement and Community Involvement  | \$0.00         |
| A.2g. | Services Supporting Multiple Domains  | \$739,172.53   |
| A.2h. | Linkages(e.g.partnerships that support multiple domains)  | \$0.00         |
| A.2i. | Agency Capacity Building(detailed below in Table C)   | \$73,762.74    |
| A.2j. | Other(e.g.emergency management / disaster relief)   | \$0.00         |
| A.2k. | Total CSBG Expenditures (auto-calculated)   | \$1,191,535.27 |
| A.3.  | Of the CSBG funds reported above, report the total amount used for Administration. For more information on what qualifies as Administration, refer to IM37. | \$200,438.28   |

| <b>GeneralComment</b>  |   |   |
| <p>FNPI 1b,c,e, and f: Multiple agencies report these NPIs. Agency definition of living wage is a minimum or 15 per hour but depends on case management assessment of client situation. Case management determines client's individual and HH needs and current employment and skills. Agencies measure, document and verify income via HMIS, paystubs, and employer verification.</p> <p>FNPI 1b,c,e, and f: Performance target accuracy for employment related outcomes has been challenging and inaccurate as agencies have not been able to rely on historic benchmarks during COVID. Employment has been affected simultaneously by shutdowns and cutbacks AND high demand.</p> <p>FNPI 1h.2 and 1h.3: Agency confirms achieving 100% outcome. Target for there FNPIs were lower than FNPI 1h of which they represent a subset of career advancement programs with the expectation a smaller number would achieve the outcome based on historic results</p> |   |   |

| <b>GeneralComment</b>  |     |             |
| FNPI 2z. "increased understanding of the dynamics of a healthy relationship": Agency was able to reach more households due to obtaining new contacts with schools who allowed us to come in to the schools. Years before they would go into only 3 schools and students chose if they wanted to participate which many did not because of the topic being DV. we have seen more students participate. The new schools allowed us to present in bigger groups to both students and parents. Which allowed us to reach more students in assembly type trainings. After COVID these where allowed to still continue through zoom. |     |             |

#### GeneralComment

FNPI 3 c: Agency confirms 100% of clients assisted in opening a savings account achieved the outcome.

FNPI 3z "individuals receiving refunds to meet basic needs " Agency served a much higher number of individuals (senior tax prep) than anticipated. Changes to service provision and funding are among a few factors during COVID that affected targets and projections.

FNPI 3z.2 "increased understanding of the dynamics of a healthy relationship": Agency was able to reach many more households than ever before due to obtaining new contacts with schools who allowed us to come in to the schools. Years before they would go into only 3 schools and students chose if they wanted to participate which many did not because of the topic being DV. Online, there have been more students participating. The new schools allowed agency to present in bigger student and parent groups. This allowed agency to reach more students in assembly type trainings. After COVID these were allowed to continue via zoom.

**GeneralComment**

Target accuracy for all housing has been affected by COVID invalidating historical benchmarks

FNPI 4c: Agency served significantly more participants than projected by leveraging other funding in order to meet increased need due primarily to the COVID pandemic and the resulting negative impact on families' household incomes. This also resulted in an increased number of households meeting outcomes.

FNPI 4d: Agency served significantly more participants than projected by leveraging other funding in order to meet increased need due primarily to the COVID pandemic and the resulting negative impact on families' household incomes. This also resulted in an increased number of households meeting outcomes.

FNPI 4e: Due to the COVID moratorium on evictions, no families were served with eviction notices regardless of the severity of rent not paid. This outcome requires that a family is given formal notice of an eviction, which did not happen due to the moratorium.

| FNPI 5i.1. Youth (ages 14-17)  |                                  |             |                      | 0                                 | 0                               |
| FNPI 5i.2. Adults (ages 18+)   |                                  |             |                      | 0                                 | 0                               |
| FNPI 5z. The number of individuals: (please specify)   |                                  |             |                      | 0                                 | 0                               |
| <b>General Comment</b>   |                                  |             |                      |                                   |                                 |
| FNPI 5b: The pandemic continued to affect agency target numbers in 2021, especially in early 2021. For example. programs such as indoor sports takes place in January, which typically have a high number of registrations, were replaced with an outdoor basket camp, which attracted a lower number of participants. |                                  |             |                      |                                   |                                 |
| FNPI 5d: Agency did achieve 100% outcome for the number of clients served. However, because of COVID, the agency served fewer clients than anticipated. They had expected to serve 35 parents and only enrolled 24.  |                                  |             |                      |                                   |                                 |
| FNPI 5e: Covid-19 greatly affected service delivery, client participation, and agency capacity which led to a lower than expected number of clients served as well as lower than typical outcomes  |                                  |             |                      |                                   |                                 |
