The Housing Element is a planning document with the objective to accommodate an adequate supply of housing for all people living within unincorporated Monterey County. Your participation in the Housing Element Update process provides an opportunity to give feedback on the locations and types of housing that may be developed in your community, as well as policies and programs to support the development of housing.

At this meeting, staff will provide an overview of the Housing Element progress and seek community input. Topics will include, the outcomes of community outreach and survey, a draft housing sites inventory, and potential policies and programs to support housing development. Bring your questions, ideas, and feedback to help identify solutions to housing related issues or challenges facing your unincorporated Monterey community.
