Subject: CAWD's Proposed Lift Station - Carmel Meadows
Date: Thursday, June 22, 2023 4:04:06 PM

[CAUTION: This email originated from outside of the County. Do not click links or open attachments unless you recognize the sender and know the content is safe.]

Dear Gentlepersons,

The purpose of this communication is to respectfully request that the current application be denied and that the District be directed to come back with a plan to replace the existing sewer in kind as proposed by Kennedy Jenks and its consultants that at the same time will meet all the environmental constraints applicable to the project at this location.

- It is unfair and illegal to create such a burden for the few homeowners who will have to smell RAW SEWAGE.
- There is a study showing the feasibility of replacing the gravity sewer pipe in kind rather than doing something that is so horrible for so many (including the environment)
- All of Carmel Meadows opposes this project and if the existing line and its surroundings had been properly maintained by CAWD, there wouldn't be the perceived risks to a gravity system.

Thank you in advance for your kind consideration of this request. I ask only if you would like to have such a proposed lift station in your back yard.

Paula Tarantino
2784 Pradera Road
Carmel Meadows
