SALINAS + MONTEREY COUNTY RFQ 100% AFFORDABLE MULTIFAMILY RENTAL HOUSING DEVELOPMENT PROJECT

Submitted by
Eden Housing, Inc.

June 24, 2022

COVER LETTER

Rod Powell, Housing Division Planning Manager
Community Development Department
City of Salinas
65 West. Alisal St.
Salinas, CA 93901

Melanie Beretti, Principal Planner – Advanced Planning
Housing and Community Development Department
County of Monterey
1441 Schilling Place, South 2nd Floor
Salinas, CA 93901

June 24, 2022

Dear Rod Powell and Melanie Beretti:

We are pleased to submit our proposal to develop Daphne Heights at the County-owned site on East Laurel Drive in the City of Salinas. Eden Housing is a 54-year old nonprofit organization with extensive experience performing complex developments through design, construction and management. Beginning with this proposal, we look forward to working together to co-create a community that transforms this unique site into a sustainable, inclusive community that will provide much-needed housing for the City and the region.

When complete, Daphne Heights will transform this challenging site into an oasis for families and farmworkers. As leaders in the development and construction of energy-efficient, sustainable homes, Eden is excited to explore innovative ways to deliver a development that is environmentally friendly, economically vibrant, and sensitive to the needs of the community. As currently contemplated, the project would deliver the following key benefits:

- At least 132 units of high-quality, service-enriched Large Family and Farmworker housing on the 5 acres contemplated in the RFQ, with the opportunity to expand to 180 units with the addition of more available County land
- A tangible sense of place on this picturesque site, including connections to local trails and a network of open space across the proposed new community.
- An opportunity to collaborate on the project vision with governmental stakeholders and the community at large

Eden Housing

DAPHNE HEIGHTS
100% Affordable Multifamily Rental
Housing Development Project

Eden is uniquely qualified to take on the Laurel Drive site. Eden Housing, as one of California's largest and oldest nonprofit developers, with a portfolio of over 10,000 affordable units under management, is well versed in complex financing structures and the nuances of affordable housing and multi-phase projects.

Eden has an unsurpassed track record of partnering with cities and other public agencies on the disposition and development of vibrant communities on public land parcels. As described further in the enclosed proposal, Eden has partnered with government entities on numerous complex redevelopment projects over the past 5 years, as well as many more in years prior. Eden Housing has no conflicts of interest related to working with the City and County.

Any questions concerning the proposal may be directed to Louis Liss at louis.liss@edenhousing.org or 510-363-2574.

Respectfully submitted,

Andrea Osgood

Senior Vice President of Real Estate Development
Eden Housing, Inc.
22645 Grand Street, Hayward, CA 94541

1. QUALIFICATIONS

Services Offered by the Development Team

Eden Housing, with the support of Dahlin Group, is pleased to submit this response to the Request for Qualifications for a 100% affordable housing development at the East Laurel Drive site in Salinas. As one of the state's largest non-profit affordable housing developers, we are well poised to deliver all the services required to bring this marquis affordable housing community to fruition, and once built, to keep it looking like it did on day one. Eden proposes to offer the following services:

- Project development **feasibility analysis** to determine the phasing, product type and target population that will best meet the City and County's needs while remaining deliverable in the current (and potential future) financing environment
- All required **design** services, delivered by Dahlin Group, from the Concept Design phase all the way through Construction Documents and Construction Administration
- Securing all required environmental, planning and building **approvals**, including but not limited to CEQA clearance, zoning approvals and building permits
- Community **outreach** services to ensure key stakeholders have an opportunity to provide feedback on the project's design
- Assembling all required project **financing** from various funding sources, and providing requisite guarantees to deliver the project
- Providing predevelopment financing required in excess of the capacity available through the City and/or County
- Project **construction** through a qualified and reputable general contractor who will meet all required labor, safety, and quality standards
- Lease-up and long-term **management** of the project, including developing and implementing an appropriate resident services plan that meets resident needs
- Long-term **partnership** with the City and County to replicate this success and support future affordable housing endeavors.

About Eden Housing

Eden Housing is one of the oldest and most experienced affordable housing non-profit organizations in California and is based in Hayward. Since our inception in 1968 (53 years in operation), Eden has developed, acquired, or rehabilitated more than 11,400 affordable units and currently provides homes to more than 24,000 lower-income residents. As a mission-driven non-profit, we serve low- and moderate-income families, seniors, and people living with disabilities. Incomes of our residents typically range from 20% to 60% of the area median income.

Eden's work goes beyond building high quality buildings, as we strive to create strong communities for the residents who live in our housing and a permanently affordable, high-quality asset for the cities we partner with. Under the Eden Housing umbrella, Eden Housing Management, Inc. (EHMI) provides quality onsite management and maintenance of our affordable homes, and Eden Housing Resident Services, Inc. (EHRSI) offers free onsite support services and programs to help ensure our residents succeed. EHMI and EHRSI often receive commendations from our partners who know and see firsthand the work we do – including city staff, neighbors, police departments, and financial investors.

Together, the integrated company brings a combined package of experience and expertise which covers the spectrum of activities involved in developing, owning, managing, and servicing a high-quality housing development. This combined effort assures that the quality design and construction of the project is preserved through the careful long-term maintenance of the property and ongoing care and service to residents.

Throughout Eden's 54-year history, Eden has been actively adapting to and influencing the affordable housing industry in California. We strive to shape housing policy every year and innovate new financing structures with every project to ensure the long-term success of our properties, and in turn, our residents. Eden Housing was the first developer in the State of California to receive tax credits – for our 54-unit Cypress Glen affordable family housing development – and we have been continually successful at acquiring 9% and 4% tax credit allocations for our projects.

Eden's pipeline has grown and we continue to add to California's inventory of affordable housing as housing costs reach a critical point in our history. We are highly experienced in obtaining affordable housing financing through HUD and HCD, as well as local housing authority, county, and city resources. We recognize that our success rests largely on our partnerships with local governments and community organizations – from early local project approvals to long term resident services – and seek to continually strengthen these relationships.

Eden Housing has nearly 500 employees, and its main office is in Hayward, CA. Eden is consistently named one of the Top 50 affordable housing companies in the nation by Affordable Housing Finance Magazine, the leading national publication that ranks and reviews affordable housing.

Eden Housing Management, Inc.

Eden Housing Management, Inc. (EHMI) is the property management non-profit affiliate of Eden Housing and manages the properties developed and owned by Eden Housing. EHMI was established in 1984 and has 34 years of experience in the field of affordable housing management, currently managing almost 10,000 units across over 140 properties.

The EHMI management model focuses on three main pillars:

1. Focus and expertise in affordable housing

First and foremost, Eden Housing Management is a non-profit management company that specializes in affordable housing. We recognize and appreciate the many ways that affordable housing is unique and tailor our operations to best address the needs of the populations we serve and the complex compliance required.

Eden Housing properties are financed with a multitude of affordable housing sources, including a wide range of US Department of Housing and Urban Development (HUD) funds, California Housing and Community Development (HCD) funds, California Tax Credit Allocation Committee (TCAC) tax credits, tax-exempt bonds, redevelopment agency funds, and conventional mortgages. EHMI is well-versed in the complex compliance required for the variety of affordable housing financing and maintains excellent relationships with these federal, state, and local government agencies and commercial lenders and investors. Through careful attention to concerns as they arise, strong communication, and consistently sound managerial practices, EHMI far exceeds management industry standards and maintains a portfolio-wide vacancy rate of 1 percent.

2. Integrated model with development, operations, and resident services

Throughout our properties, we have seen the benefits of integrating development, property management, and resident services under the Eden Housing umbrella. Keeping developments within the same organization allows for a seamless transition

between development and property management, as well as a high caliber of communication between property management and resident services on a regular basis. Other advantages of the integrated model include:

Property operations and resident services staff provide invaluable insight to the development process, as they see first-hand how properties operate and building systems and materials age over time. Additionally, asset management and accounting staff acutely understand property financials over the lifetime of a development. As such, each new construction and rehab project continues to build on – and benefits from – the expertise and cross-pollination of ideas among the Eden departments.

As we have ramped up our rehabilitation work at occupied properties, effective communication between development, operations, and resident services has been paramount. Eden staff from these departments communicate on a daily basis as needed to ensure the work is going smoothly and residents and staff are kept informed. Additionally, representatives from these departments hold recurring weekly meetings to check in on current issues and progress.

Eden Housing management and resident services work in tandem to effectively manage our properties and support our residents. One example of such collaboration is National Night Out, an annual event that brings residents, staff, neighbors, the police department, and elected officials together to celebrate community relationships as well as improve neighborhood safety. Property management and resident services staff work closely together to put on these events, and in 2015 and 2016, National Night Out was celebrated at all Eden properties, with 52 events and more than 4,000 residents participating.

3. Commitment to sustainability

We recognize that how we operate our buildings has a direct impact on the health of the environment, of our residents, and of property finances. As such, Eden is dedicated to environmental responsibility and has incorporated this commitment into its everyday operations. In 2009, Eden launched a comprehensive green initiative to lower usage and operating expenses for water, electricity, gas, and trash. We performed utility audits at 100 percent of our properties, engaged in comprehensive capital planning, and leveraged more than \$10 million to green our portfolio. Our efforts included retrofitting 27 properties for solar systems, replacing low flow fixture replacements, and resident education programs and trainings.

Since that time, Eden has continued to closely monitor utility usage at all our properties and seek new ways to improve utility efficiency. We have partnered with a third party service to monitor our energy and water usage at each property, analyze the data, and

identify key targets for usage reduction. In 2015, we reduced our water usage by 20% across the portfolio.

To further our green efforts and ensure continued progress, Eden has an interdepartmental Green Steering Committee (GSC), which is responsible for Eden's green strategic planning efforts. The GSC has played an instrumental role in executing all of our green initiative activities, including training modules for staff and residents and the creation of Eden's Operations and Maintenance Manual. One of our main goals is to keep our green education goals on the forefront to encourage positive green behavior. Our committee meets bi-weekly and is a resource for all staff on an on-going basis.

Eden Housing Resident Services, Inc.

Eden Housing Resident Services, Inc. (EHRSI) was established in 1995 as a 501(c)(3) nonprofit affiliate of Eden Housing, Inc. to provide resident services programming to properties in the Eden Housing portfolio. EHRSI provides a wide range of services and enrichment programs designed to meet the needs of our diverse resident population. We believe that housing is a foundation for life change. Our goal is for families is to create pathways out of poverty by providing them with housing stability and programming to help them reach their goals. For seniors and special needs, including homeless populations, Eden's goal is to provide a place to age with dignity in their own home. We strive to inspire hope by providing high-quality, relevant, and impactful service coordination and program offerings that create stability and a path to economic empowerment for residents.

Eden's portfolio includes 142 managed properties of which 25 (17%) include units for the homeless population. For all sites, services are organized around six core areas of focus including housing stability, education, health & wellness, economic empowerment, community engagement, and technology access. Services are client-focused and respond to the specific needs of each housing community. We have established goals for each of the focus areas as follows.

EHRSI Primary Goals		
Focus Area	Seniors & Households with Special Needs	Families
Housing Stability	Maintain their housing for the remainder of their life.	Remain housed until enough resources are accumulated to successfully transition into less subsidized housing.
Economic Empowerment	Maintain existing income/assets and increase income when possible by accessing available financial benefits and taking advantage of discount programs.	Increase assets and income, access available financial benefits, and reduce debt.
Education	Improve their ability to navigate the systems affecting their life (health care, social security, transportation, etc.)	(Adults) Improve their knowledge and ability to find employment and increase their ability to advance in their career. (Children) Improve their educational outcomes and trajectory through participation in quality early childhood, afterschool & youth programs. (Parents) Improve their ability to advocate for their children in school and be engaged in their child's educational development.
Health & Wellness	Increase their knowledge of access to health care systems, preventative health measures, nutrition, and mental health resources.	
Community Engagement	Improve community participation and engagement within the property and with the larger community and develop residents to be advocates and leaders in their community.	
Technology Access	Improve their understanding of how to utilize technology to achieve self-identified goals and increase access to the internet.	

Services range from offering one-on-one support to providing workshops and hosting community-wide events. There are three primary levels of services coordination which include an on-site Resident Services Coordinator and/or Case Management, special programs only such as an afterschool program or technology training, or access to an Information and Referral Hotline staffed during regular business hours.

EHSI's model of service delivery is unique in that we utilize in-house paid staff members as well as contract with other third-party providers to provide quality services. EHSI currently contracts with over a dozen third party service providers and has an in-house Director of Community Partnerships to oversee and manage those relationships.

Additionally, EHRSI contracts with organizations to provide special programs to sites including the Boys and Girls Clubs and Second Harvest Food Bank.

We seek to partner with local experienced providers whenever possible, whether through contractual relationships or through memorandums of understanding. EHRSI works with a large range of local community service partners to offer programs, workshops, and presentations to our residents on topics related to the six focus areas. We believe it is critical to integrate our services with services currently provided in the larger community and to help our residents make those connections to ensure a successful transition out of our housing for households where that is appropriate.

For projects in Eden's portfolio that serve special needs populations such as veterans, individuals with disabilities, and households exiting homelessness, EHRSI provides comprehensive, culturally specific services either through direct service or by contracting with a third-party service provider. These services are flexible and responsible to individual resident needs, but can include case management, crisis management for substance use disorders, mediation services, and housing success services, including helping residents to understand lease obligations and house rules. EHRSI has experience coordinating with providers such as the Department of Veterans Affairs and County Departments of Mental/Behavioral Health. Eden's Associate Director of Supportive Housing manages these projects.

EHRSI has experience both beginning services at new properties as well as coming in to provide services at existing properties. In each instance, we take the time to evaluate the needs of the residents by utilizing resident assessments and community meetings. From there, a menu of services is created and offered to residents focusing on the goals outlined above for the six core focus areas. Our staff and partners work hand-in-hand to provide the best programming and services available to residents to help them maintain their housing and reach for their dreams.

Equity Statement

Since our founding in 1968, Eden Housing has been committed to building and preserving a home for everyone in need. We have a responsibility to address structural racism in our communities through our work in housing. The following equity statement outlines our commitment.

We advocate to eliminate the effects of racist, exclusionary land use policy and housing discrimination. We value racially and economically diverse communities because they are essential to our collective success.

We build inclusive, high-quality, well-designed, affordable housing throughout California. We do this because everyone has a right to live in safe, thriving neighborhoods with access to quality education and employment opportunities.

We believe that access to resident services and amenities allows people to live with dignity, experience lifelong growth, and build financial security. We will apply an equity lens to our partnerships, programs, and supply chain to acknowledge that the opportunities we provide can be a pathway to economic success for people who have encountered the most significant barriers.

We celebrate our differences and strive to create change for good. We hire people who embody and champion the Eden Housing brand and mission.

We value the unique perspective that derives from richly diverse residents and employees. We pledge to engage and elevate the voices of all cultures and backgrounds to increase our efficacy and understanding.

We promise to do our part. We promise to be mindful and consistent.

We commit to scrutinize and improve our practices, policies, and programs. We will continue to increase our social awareness and ability to understand, appreciate and interact with people from different cultures and belief systems. We will deliver with integrity, champion our people, build enduring partnerships, and commit for the long haul.

We challenge our partners to join with us in the fight to end racist policies and practices in the housing industry. Together, our advocacy and concrete actions will help us change the world one corner at a time.

About Dahlin Group

DAHLIN is a diverse architecture and planning firm of 150+ multicultural professionals working with developers, municipalities and communities on various types of affordable housing projects. From four offices in California, an office in Bellevue, Washington, and two offices in the People's Republic of China, we provide these services globally.

We successfully support affordable housing projects by looking beyond the site itself to the neighborhood and the greater community around it, becoming an advocate for the people the project will impact. By listening first and designing second, we match our expertise with their expectations and goals to build community consensus on the front end, workshopping towards a project design that will foster community for decades to come. Our design solutions are innovative, real and achievable. Our people are passionate about creating places that promote human fulfillment and well-being.

Passion for Place® is evident in all we do—whether we are working with a developer to entitle and deliver a new affordable mixed-use community, developing a supportive housing community that provides safe, clean, quality housing for its residents, or rehabilitating an existing community.

Since 1976, we have been committed to excellence in design—best demonstrated through our long-term client relationships and by our award-winning, financially successful, and sustainable design solutions.

Eden Housing's Monteverde Senior Apartments | Orinda, CA | Designed by DAHLIN

Eden Housing's Hayward Senior Apartments | Hayward, CA | Designed by DAHLIN

Community-Focused Design

DAHLIN's commitment to designing spaces with construction efficiency and cost effective materials while looking for opportunities to create communities that support a sense of belonging is a prerequisite for affordable housing clients.

While it can be a common misconception that "affordable housing" means compromising with small, less livable apartments built with inexpensive materials, often the opposite is true. Small units actually necessitate a focus on design for living efficiency as a key to the success of the overall project and livability for residents.

The attention to detail that would be expected of a well-appointed, market-rate project, is even more relevant when creating a community that will be operated and managed with an expectation for longevity and maintenance efficiency. As a result, building owners and operators, as well as residents, are satisfied by a design that succeeds in supporting a cohesive community.

Cross-Pollination: Community Serving Projects

Our holistic approach to development of affordable housing communities is complemented by our expertise in planning, programming and design of community serving projects, combined with our knowledge of commercial, retail and hospitality design. The cross pollination better equips us to develop more creative design solutions. We know the materials and construction techniques to create memorable buildings while being critically conscious of cost and ongoing maintenance requirements. We understand how mixed-uses relate to create a sense of place and community that brings people together, meeting the needs of multiple user groups now with adaptability for future needs.

COMMUNITY ENGAGEMENT PROCESS

Listening

The stakeholders tell all—community goals and aspirations

Outlook

Brainstorm with an open mind from outreach exchanges

Solutions

Translators of community visions into functional realities

Answering *Not in My Backyard* Reactions

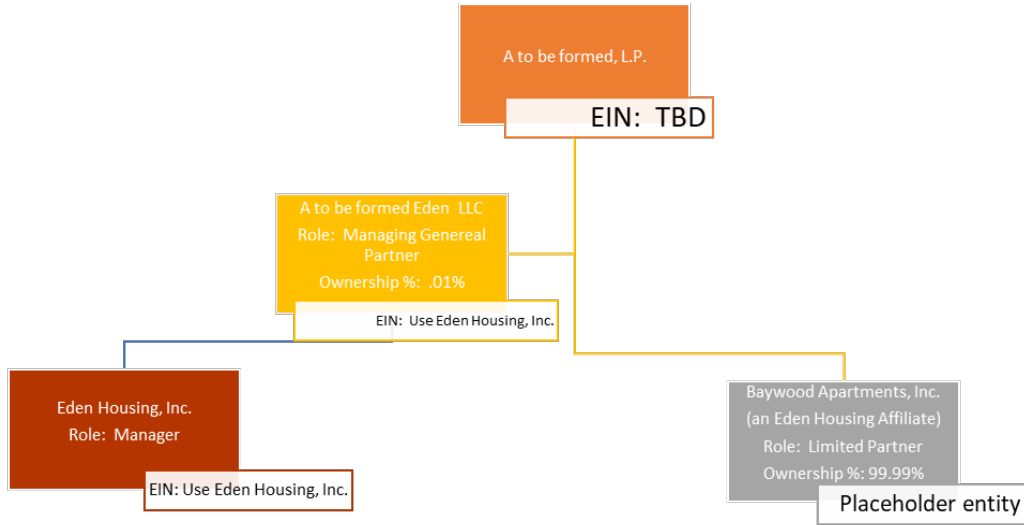

DAHLIN helps project owners articulate their vision and generate acceptance for their projects throughout the entire entitlement process. We have learned never to assume the public will embrace a project—even those that may seem to be an obvious benefit to the neighboring community.

We have been in the trenches of community outreach alongside our clients so many times we can discern the underlying concerns of objections even when they are not being said in so many words. Then, we imagine the possibilities and develop creative solutions to feasibly address and overcome objections, keeping in mind innovative flairs that set apart new developments.

Project Management, Structure and Organization Chart

The proposed project will be developed, owned and managed by Eden Housing and its affiliates. During the development phase, the project will be overseen by a project manager, who will be supervised by an Associate Director or above, with regular input from department and corporate leadership. Eden strives to have a single project point of contact who has the company's full support on each project element. More details on project staffing are in the experience section.

The proposed project ownership structure can be illustrated as specified below. It is anticipated that the project will be owned by a tax credit limited partnership, as is customary in projects of this nature., currently shown as a placeholder entity. The Placeholder entity is replaced with a tax credit equity investor at the financing closing milestone. Eden Housing, Inc. will provide all necessary completion and financing guarantees for this project, as we do on all our projects. Eden has a strong balance sheet, and providing such guarantees is a matter of course for our organization. Dahlin Group will contract directly with Eden Housing, Inc. initially and then will contract with the limited partnership after it has been formed. Each independent phase would be owned by its own partnership, and staff would ensure that each ownership entity is assigned the required rights and responsibilities it needs to bring on an equity investor and close its financing.

Project Team Resumes

Linda Mandolini

President | Eden Housing

Ms. Mandolini has served Eden Housing as a Project Developer, as Director of Real Estate Development, and since 2001, as Executive Director and President. She is guided in her work as President by Eden Housing's active volunteer board of directors.

Linda oversees affordable housing production, resident support services, and property management components of the organization. She actively participates in high level conversations and meetings with City Council members and other decision makers. As a rule, she likes to attend public hearings and other high-profile events to speak on behalf of Eden whenever possible.

Linda is a board member of several local and national affordable housing organizations, listed below. In addition, Linda previously served as a member of the Board of Directors and Chair of the Non-profit Housing Association of Northern California and as a founding Board member and Chair of The Housing Trust of Silicon Valley.

Linda has been honored with the 2016 SF Business Times Forever Influential Honor Roll, 2014 and 2015 SF Business Times "Bay Area's Most Influential Women" award, 2011 SF Business Times "Northern California Real Estate Women of Influence" award, 2011 Affordable Housing Management Association (AHMA) Pioneer Award, and the 2008 East Bay Business Times "Women of Distinction" award.

Andrea Osgood

Senior Vice President of Real Estate Development | Eden Housing

Ms. Osgood joined the Eden Housing Development team in 2008 and currently leads Eden's new construction and acquisition efforts. She assists with supervision of Development staff, actively participates in early development activities, and provides guidance and expertise throughout the development process.

Since joining Eden, Andrea has developed over 400 new units and overseen the acquisition of nearly 1,400 existing units in six California counties – from Sonoma to San Diego County.

Before her career in affordable housing, Andrea worked as a construction management consultant for Capital Projects of UC Berkeley and was involved in nearly every phase of large rehab and new construction projects – from planning and development through funding and construction. She also gained experience in construction litigation and public contracting as a lead paralegal in the construction group of the San Francisco law firm, Hanson Bridgett Marcus Vlahos & Rudy.

Louis Liss

Associate Director of Real Estate Development | Eden Housing

Mr. Liss originally joined the Eden Housing Development team in 2018 and has worked on both acquisitions and ground-up new construction and projects. Since joining Eden, he has overseen the delivery of 130 units in Alameda, CA in two phases: a 60-unit Senior and Veterans project called Corsair Flats project and a 70-unit Family and Special Needs project called The Starling.

Before working at Eden, Louis got his master's degrees in city planning and real estate development, during which time he was a teaching assistant in economic development finance and conducted research for the Real Estate Innovation Lab and the Sloan School of Management. His master's thesis examined the economics of adaptive reuse projects, affordable housing and commercial activation in challenging real estate development markets in Massachusetts.

In addition to his work in affordable housing, Louis has held positions in infrastructure and economic development in municipal government at New York City Economic Development Corporation and San Francisco Municipal Transportation Agency.

Kasey Archey

Senior Vice President of Property Operations | Eden Housing

Ms. Archey brings a wealth of experience and knowledge in the operation and management of multi-family housing to Eden. She comes to Eden from Jerusalem House where, as Program Manager for Scattered Sites, she oversaw the largest supportive, permanent housing program in the metro Atlanta area for homeless, low-income people living with or affected by HIV/AIDS. Prior to this role, she was the Grants & Compliance Manager, responsible for the oversight and management of governmental grants for all housing units. She has also held leadership roles in Property Management at Abode Communities and Goldrich and Kest. In addition, she has served on the Board of the Affordable Housing Management Association-Pacific Southwest and is an active and contributing member of the National Affordable Housing Management Association.

Education

Dillard University, Bachelor of Arts

Anna Gwyn Simpson

Vice President of Resident Services | Eden Housing

As Vice President of Resident Services, Anna Gwyn oversees all of Eden Housing's resident service programs and staff. Since 1995, Eden Housing has provided a wide range of supportive services and enrichment programs designed to meet the needs of its diverse resident population. Eden Housing provides services directly as well as partners with other community organizations to deliver services. The comprehensive programs are offered at 100% of Eden's managed properties. Programs include youth and after-school programs, digital technology and literacy programs, aging in place and independent living programs for older adult seniors, health and wellness programs, and financial literacy programs.

Anna Gwyn has more than 20 years of social service experience with an extensive background in managing social service programs for diverse communities and developing evaluation metrics and measurement tools to articulate program success. Prior to joining Eden Housing, she served as the Interim City Manager for the City of Martinez.

Anna Gwyn has spent most of her career in housing, serving in leadership roles with the Oakland Housing Authority, Citizens Housing Corporation, and Episcopal Community Services of San Diego and Riverside Counties.

She previously served as a Board member of the Executive Board of Directors of the Pacific Southwest Regional Council of the National Association of Housing and Redevelopment Officials (NAHRO). She currently serves as a Board member of the Affordable Housing Management Association for Northern California and Hawaii (AHMA-NCH) in the role of Director of Resident Services.

Ritu Raj Sharma, AICP, LEED AP

Principal / Senior Planner | Dahlin Group

Ritu Raj Sharma is a dynamic urban designer with over 16 years of planning, urban design and architectural experience working with communities, private developers and public agencies. As leader of the planning team, he provides design and planning expertise on a wide scale of planning projects, including large master plans, urban mixed-use projects, streetscape plans, and design guidelines, encompassing issues of equity, community and urban design and open space.

Ritu Raj’s projects are focused on placemaking, context sensitive design and creating consensus in the communities he works in. His familiarity with building typologies and densities, ability to convey issues of scale and mass, and knowledge of building and municipal codes brings rigor to the guidelines and standards he is involved with. His extensive involvement in these various planning projects spans the entire project lifecycle. Through years of seeing numerous projects through from start to finish, Ritu Raj has developed a holistic perspective on the planning process, from which he actively draws insights for creating innovative planning and development strategies for better communities with a strong focus on sustainability. Several of these projects have received awards and industry recognition, such as the Watson Ranch Specific Plan in American Canyon, the Duarte Station TOD Specific Plan, the University Villages Specific Plan and the Villages of Black Diamond Master Plan.

The Eden Way – High Quality Housing Development and Management

Eden Housing has a robust system in place to ensure **quality control** at every stage of the development process. As one of the oldest affordable housing developers in the state, decades of institutional knowledge and growth have enabled Eden to deliver community after community of high-quality affordable housing.

With a development team of over 30 full-time employees, Eden's deep bench enables the organization to maintain a high level of capacity to take on new, complex projects at any time. A high degree of financial stability as well as Eden's ability to recruit and retain talent allows each project to remain fully staffed. Beyond the organization's high capacity, specific steps are taken to ensure that the complex process of development is reviewed by many eyes. This includes:

- A reporting structure that includes a dedicated project manager per project along with continual, experienced supervision as well as final checks on business decisions by the department's Senior Vice President.
- A policy and practice of peer review throughout the development process, including:
 - Regular Project Risk Reviews by department leadership to help shed light on project threats and opportunities and share knowledge from across the development pipeline
 - A process of peer review before major funding application submissions, enabling a multiple-eyes system of mitigating high-stakes clerical errors.
 - All-hands meetings at major project milestones to maintain an all-company approach to delivering project success
- Longstanding partnerships with the industry's best experts, including:
 - Experienced financial consultants
 - Talented legal council with expertise in the intersection of tax credit finance and community development
 - Owner's representation with decades of experience delivering, troubleshooting and maintaining Eden's high-quality homes

Housing is built by people, and twists and turns are inevitable throughout the process. However, Eden's processes, resources and talented staff enable a high level of competence and oversight throughout the project's life cycle, swiftly resolving issues that come up.

2. EXPERIENCE

Past Eden Partnerships with Public Entities

Eden has a long history of successful partnership with public entities—partnering with government and acting as a go-between for governmental agencies is at the core of our work. The scope of our partnerships with public entities has run the gamut from solely obtaining permits and planning approvals to incorporating local housing bond funding all the way to co-creating projects with public partners on publicly owned land. Below are three examples of projects finished within the past five years that were built hand in hand with governmental partners on publicly owned land. These three examples are just that—only a small sample of the many projects of this nature Eden has delivered over the decades. It’s also worth noting that Eden currently has several projects currently in its development pipeline owned by entities such as the State of California, Santa Clara County and the City of San Jose among others. More details on each project (along with others) are in the Sample Developments section.

Recently Completed Public Entity Partnership Projects

Corsair Flats (2020) and The Starling (2021)

Location	Alameda, CA
Public Agency with Contract	City of Alameda Community Development Department
Scope and Contract Details	In partnership with Alameda Point Partners, the master developer of the Alameda Point Site A development, Eden Housing was assigned the project's 128-unit low- and very-low income inclusionary housing obligation. Eden's responsibilities were to design the project consistent with the area's precise plan, obtain design review approvals and permits, obtain the project's financing including highly competitive State sources, and ultimately own and manage the projects. Eden delivered the homes in two phases, in 2020 and 2021 respectively. More details are provided in the Sample Developments section. The land for each project was conveyed for \$1, and the City also contributed funds from its County bond fund allocation as well as master developer-paid inclusionary fees into each project (a grand total of \$6 million).
Reference Contact Info	Lisa Maxwell Community Development Director City of Alameda (510) 747-6899 LMaxwell@alamedaca.gov

Hana Gardens Senior Apartments (2018)

Location	El Cerrito, CA
Public Agency with Contract	City of Alameda Community Development Department
Scope and Contract Details	<p>Eden Housing was selected as the developer of a City of El Cerrito project site immediately adjacent to City Hall after a competitive RFQ process in 2010. Eden entered into a Disposition Development and Loan Agreement with the City, which laid out Eden’s responsibility to develop the site from the design concept originally proposed in the RFQ to full completion and operation. The partnership with the City included a robust community process that catalyzed the preservation of a historic flower shop building, a precious asset to the local Japanese-American community. The project’s development straddled the period that included the dissolution of redevelopment agencies, and Eden worked to bring in State funding through the then-new Affordable Housing and Sustainable Communities program, including funds to improve the Ohlone Greenway adjacent to the project. The project opened in 2018 as a Senior project with a 2,000 square foot Senior Center at the ground floor. The City donated the land and contributed \$300,000 in funding to the project budget.</p>

Eden Housing

DAPHNE HEIGHTS
 100% Affordable Multifamily Rental
 Housing Development Project

Cranes Landing (2018)

Location	Lodi, CA
Public Agency with Contract	City of Alameda Community Development Department
Scope and Contract Details	After being selected from a competitive RFQ process, . Eden entered into a Disposition Development and Loan Agreement with the City of Lodi to develop a senior affordable housing project immediately adjacent to Roget Park, a key neighborhood open space in the community. Eden’s responsibility was to design, construct and operate the project, maintaining affordability levels consistent with the City’s available funding at the time, which included HOME, CDBG and HUD Section 202. the site from the design concept originally proposed in the RFQ to full completion and operation. Eden completed the project – 79 units of Senior housing – in 2017, on time and on budget. The City donated the land and contributed almost \$500,000 in funding to the project budget. Eden also worked with San Joaquin County to help fund the project.

Project Team Roles

We have identified the key members of the development team below with a short summary of each person's specific role and location. Additional information on training and professional experience for each person is included in the Resumes section.

Linda Mandolini, President

Email: LMandolini@edenhousing.org

Phone: (510) 247-8117

Office Location: Hayward, CA

Project Role: Ms. Mandolini oversees affordable housing production, property management, and resident services components of the entire Eden organization. The combined annual operating budget for the three companies is over \$50 million, with a staff of over 450 employees. Ms. Mandolini will oversee all high-level business decisions.

Kasey Archey, Senior Vice President, Property Operations

Email: Kasey.Archey@edenhousing.org

Phone: (510) 247-8114

Office Location: Hayward, CA

Project Role: Ms. Archey is responsible for all property management functions of Eden Housing Management Inc. and also oversees the Services and Asset Management needs of the corporation. Ms. Archey will oversee all property management-related decisions.

Andrea Osgood, Senior Vice President of Real Estate Development

Email: AOsgood@edenhousing.org

Phone: (510) 247-8103

Office Location: Hayward, CA

Project Role: Ms. Osgood oversees Eden's development activities. She will lead Eden's collaboration with the City and County, assist with supervision of development staff, actively participate in early development activities, and will provide guidance and expertise throughout the development process.

Anna Gwyn Simpson, Vice President of Resident Services

Email: AnnaGwyn.Simpson@edenhousing.org

Phone: (510) 247-8181

Office Location: Hayward, Ca

Role: Ms. Simpson supervises services staff in implementing and providing EHRSI's successful programs and services to residents. As well, she continues to build and maintain EHRSI's strategic partnership with other local service providers and organizations to provide additional health, educational and enrichment programs at our developments. Ms. Simpson will actively participate in the planning and implementation process for the project's Resident Services plan.

Louis Liss, Associate Director of Real Estate Development

Email: Louis.Liss@edenhousing.org

Phone: (510) 363-2574

Office Location: Hayward, CA

Project Role: Mr. Liss will be the lead Project Developer handling the day-to-day responsibilities of the project through predevelopment and construction.

Sean Whitacre, Principal/Senior Architect, Dahlin Group

Email: sean.whitacre@dahlingroup.com

Phone: 858-350-0544

Office Location: San Diego, CA

Project Role: Mr. Whitacre will be the principal-in-charge of the project, providing strategic input and oversight on major design decisions.

Jirair Garabedian, Senior Associate/Senior Architect, Dahlin Group

Email: Jirair.garabedian@dahlingroup.com

Phone: (949) 250-7214

Office Location: Irvine, CA

Project Role: Mr. Garabedian will be the day-to-day project manager for the design of the community, handling all elements of the design from concept to construction documents.

Ritu Raj Sharma, Principal/Senior Planner, Dahlin Group

Email: rituraj.sharma@dahlingroup.com

Phone: (925) 251-7297

Office Location: Pleasanton, CA

Project Role: Mr. Sharma will provide input on the project’s planning process and context, helping the design team to tailor the project to meet local policy and planning goals.

Last Ten Years of Project Completions

Eden Housing’s robust development pipeline has enabled the team to open (and re-open after renovation) numerous projects in the last decade, with many more to follow in the coming years. Below is a list of the projects that completed new construction in the past ten years. A similarly large number of projects have been substantially renovated and acquired during this same period but are not included in this list. Eden’s full Real Estate Owned schedule is included as an attachment to this response.

Project	Year Completed	Units	Location
Loro Landing	2022	62	San Leandro
The Starling	2022	70	Alameda
Reilly Station	2021	61	Fremont

Project	Year Completed	Units	Location
Corsair Flats	2020	60	Alameda
Hana Gardens	2018	63	El Cerrito
Pauline Weaver	2018	100	Fremont
Miraflores	2018	80	Richmond
Valor Crossing	2017	66	Dublin
Cranes Landing	2017	80	Lodi
Alta Mira	2016	151	Hayward
Camphora Apartments	2016	44	Soledad
Studio 819 Apartments	2015	49	Mountain View
Weinreb Place	2015	22	Hayward
University Village Apartments	2014	108	Marina
Ford Road Plaza	2014	75	San Jose
Monteverde	2014	67	Orinda
Belle Terre	2014	46	Lafayette
Monterey Villa	2013	20	San Jose
Wexford Way	2013	131	Dublin
Warner Creek	2013	61	Novato
801 Alma	2013	50	Palo Alto
Cottonwood Place	2012	98	Fremont
Carlow Court	2012	50	Dublin

Sample Developments

Miraflores Senior Apartments

150 S. 45th Street, Richmond | Affordable Senior Housing

Project Name	Miraflores Senior Apartments
Project Location	150 S. 45th Street, Richmond, CA 94804
Construction Schedule	Started in February 2017 Completed in May 2018
Development Cost	\$40,100,000
Lot Size and Density	1.56 acres; 51.2 dwelling units/acre
Building Areas	70,143 SF of residential space
Units	80 affordable rental apartments 79 1-bedroom senior units 1 2-bedroom manager's unit
Incomes	30-45% of AMI
Developer	Eden Housing, Inc. and Community Housing Development Corporation
Architect	HKIT Architects
Contractor	James E. Roberts- Obayashi Corp.
Property Operations	Eden Housing Management Inc. Eden Housing Resident Services Inc.

Overview: Eden Housing partnered with another non-profit, the Community Housing Development Corporation of North Richmond, to provide 79 new affordable senior rental apartments along with a number of community benefits including a new park. More than 15 years in the making, Miraflores Senior is a testament to the commitment of the Development Team and the City of Richmond to transform a 14-acre brownfield site and former flower nurseries into a new, vibrant community. The property serves very low and extremely low-income seniors in Contra Costa County with incomes are or below 30%-45% of the area median income.

Placemaking and Amenities: Miraflores Senior Apartments includes a community room with a kitchen, a common courtyard with BBQs and community gardens, a computer lab, and bike storage. The design articulates a Spanish architectural style and sets a high design bar for future development of the former nursery site.

In addition to the affordable housing, Eden was also able to help the City secure funding required to help build a new public park that honors the history of the Japanese-American flower industry. The park is located to the east of the project and provides a buffer to the Freeway. In addition, the project was able to help build new bicycle and pedestrian paths that connect the Park Plaza community to the Richmond Greenway and the McDonald Avenue Commercial District. The funding that made this possible was from the State's Affordable Housing and Sustainable Communities (AHSC) program and was secured in the inaugural round of this program.

Public Private Partnership: Eden worked closely with the City of Richmond to design, develop and finance a new park and connecting bicycle and pedestrian connections to the park from the housing development. Eden also worked closely California HCD on the funding of these improvements.

Parking and Transportation Demand Management: The project includes 70 total surface parking spaces, with some provided on-site (32) and some on-street (38) which

represents a total parking ratio of 0.875 spaces per unit. The off-street (on-site) ratio is 0.4 spaces per unit. Eden’s experience developing senior properties has shown us this is amount meets the demand of the senior population.

A transit pass program provides a minimum of 1 AC Transit pass to each residential unit at the facility. The development’s operating funds pay for the cost of these passes for the first three years of operations, and after Year 3, the project will cover half of the cost of each pass and the resident will be asked to cover the other half. At \$10 a month per pass, the cost for residents is 90% less than the regular price for a monthly pass.

Financing: Miraflores was financed using 4% tax credits and tax-exempt bonds. In addition, the project includes significant funding from two state level programs (AHSC and an Infill Grant), project-based vouchers, a small loan from the City and Federal Home Loan Bank of San Francisco Affordable Housing Program (AHP) loan. Wells Fargo serves as the project’s tax credit equity investor as well as construction lender. The California Community Reinvestment Corporation holds the first mortgage.

Funding Sources	Type/Program	Phase	Total Dollars
California Community Reinvestment Corporation	Perm Loan	Perm	\$8,965,000
Wells Fargo	9% Equity	Perm	\$17,216,777
HCD AHSC	Soft Loan	Perm	\$5,077,558
HCD Infill Grant	Grant	Perm	\$3,312,544
City of Richmond	Soft Loan	Construction/Perm	\$2,869,059
Deferred Developer Fee	Deferred	Perm	\$1,915,906
AHP	Soft Loan	Perm	\$790,000
Total			\$40,146,844

Community Outreach: Miraflores Senior was part of a larger plan to redevelop several former nurseries and took many years of community outreach and environmental clean-up before construction could commence. Eden Housing, together with the City, helped lead an extensive community outreach and entitlement process that also included preparation of an EIR. Because a significant component of the project involved extensive environmental cleanup; Eden, CHDC and the City held numerous meetings to explain the scope of the clean-up and solicited input regarding community concerns. In addition to the environmental work, the community was also interested in preserving some of the history of the former uses on the site. Eden met multiple times with the Historic Preservation Advisory Committee and ultimately created a plan to honor the site’s history as a Japanese-American nursery by preserving and re-using some of the old greenhouse structures, as well as the water tower and tank, and two original family homes. As the entitlement process continued, Eden and CHDC held several design charettes with the wider community and met with key neighborhood groups such as

the Park Plaza Neighborhood Council, the Laurel Park Neighborhood Council, and the Pullman Neighborhood Council.

Green/Sustainable Features: The project scored 150 points in the GreenPoint Rated program (Platinum level) and has several green features including solar photovoltaic panels and solar thermal system to offset the common area gas usage and electrical load. The landscaping is drought resistant and smart timers control the irrigation systems to prevent over watering of plants. Bioswales enhance natural drainage of water on-site rather than into the storm water system. Inside the building, low VOC paints improve indoor air quality, high efficiency light fixtures and Energy Star appliances reduce energy consumption, and low flow toilets and showerheads reduce water consumption.

Resident Support Services: An integral part to each Eden community is providing residents with service-enriched housing options allowing seniors to live independently and age-in-place. Eden Housing Resident Services, Inc. (EHRSI), also an affiliate of Eden, provides a variety of services to the residents which include dedicated service coordination and individualized one-on-one support, adult education opportunities, health and wellness classes, and community engagement activities.

Hana Gardens Senior Apartments

10860 San Pablo Avenue, El Cerrito | Affordable Senior Housing

Project Name	Hana Gardens Senior Apartments
Project Location	10860 San Pablo Avenue, El Cerrito, CA
Construction Schedule	Started in Completed in 2018
Development Cost	\$33,400,000
Lot Size and Density	0.96 acres; 65 dwelling units/acre
Building Areas	53,400 SF of residential space 2,000 SF of commercial space
Units	63 affordable rental apartments 62 1-bedroom senior rental units 1 2-bedroom manager's unit
Incomes	30-50% of AMI
Developer	Eden Housing, Inc.
Architect	Van Meter Williams Pollack Architects
Contractor	Midstate Construction
Ground Lease	None

Overview: Hana Gardens Senior Apartments is a 63-unit development of new affordable senior rental housing in El Cerrito, California, directly adjacent to City Hall. The development includes two buildings: a four-story, wood-frame structure and a pre-

existing 900 SF stand-alone building. The ground floor frontage of the four-story building includes a 2,000 SF commercial space, which was leased to the City of El Cerrito to be used for a Senior Center. Sixty-two (62) of the senior apartment units include one bedroom, a kitchen, a living area and full bathroom averaging approximately 614 rentable square feet in area. Fifty percent (50%) of the units will be built out to meet ADA accessibility needs. All apartments are designed to allow for access by persons in wheelchairs, including all kitchens and bathrooms.

Placemaking and Amenities: The design follows the principles of the San Pablo Avenue Specific Area Plan, including a high commercial ground floor, a strong articulated urban street presence on San Pablo Avenue, and a beautiful public plaza which serves the local community, visitors and the residents of the senior community as well. In response to feedback from the community, we decided to preserve the existing stone-faced commercial building located at 10848 San Pablo Avenue. Between 1935 and 1965, the building served as the Mabuchi family flower shop and was an integral part of the Japanese American cut flower industry that once thrived throughout Contra Costa County. This history inspired the name of the development, as "hana" is often translated from Japanese into English as "flower." The single-story structure was converted into a community room for Hana Gardens residents.

The plaza is designed to welcome the community and passerby and honors the Japanese-American influence on the flower industry, including historical narrative panels in the plaza and a timeline along the sidewalk. Eden was pleased to partner with the Japanese American Citizens League and the El Cerrito Historical Society on the installation. The development's design includes two community rooms. One community room opens onto an outdoor courtyard garden with seating while the second

community room is located in the former flower shop building that was preserved. Additional community spaces include a computer lab, fitness room and laundry room. The private courtyard behind the building contains picnic-style seating, benches, community gardens, and extensive bay-friendly landscaping.

Parking and Transportation Demand Management: Located on the transit-rich San Pablo Avenue and within one mile of El Cerrito Del Norte BART station, Hana Gardens is the quintessential transit-oriented development and is perfectly situated for seniors to utilize public transit. Residents will also be provided transit passes at no charge. The nearby transit and the provision of a shuttle/Van/passenger drop off space at the front of the building will provide greater access to transit and other convenient transportation facilities. The project provides 34 parking spaces for residents, which the parking evaluation demonstrated is sufficient for the senior residential needs. The building also includes a bike storage room. In addition, there are two off-street parking spaces for the commercial space.

Hana Gardens is privileged to be one of the first developments to receive state Affordable Housing and Sustainable Communities (AHSC) funding. In partnership with the City of El Cerrito, new bicycle and pedestrian wayfinding and amenities has been created on the Ohlone Greenway, a multimodal path connecting the two El Cerrito BART stations.

Financing: 4% LIHTC, City of El Cerrito Funds and Land Loan, Contra Costa County Funds, HCD Infill Infrastructure Grant, HCD AHSC, AHP, Wells Fargo (construction lender and equity investor), California Community Reinvestment Corporation (permanent lender). The project also received 39 project-based vouchers and 23 RAD vouchers from the Housing Authority of Contra Costa County.

Funding Sources	Type/Program	Phase	Total Dollars
City of El Cerrito	Land Donation		\$3,900,000
City of El Cerrito	Soft Loan	Predev/Construction /Perm	\$300,000
Contra Costa County	HOME, CDBG Loan	Construction/Perm	\$2,100,000
HCD	IIG Grant	Construction/Perm	\$1,399,547
HCD	AHSC- Loan	Perm	\$5,271,696
HCD	AHSC- Grant transit passes for 3 years	Perm	\$22,680
Wells Fargo	Equity	Construction/Perm	\$13,267,966
CCRC	Perm Loan	Perm	\$6,555,000
FHLBSF –AHP		Perm	\$620,000
Total			\$30,859,825

Business Relationship with a Public Agency: This project was awarded AHSC funding because it was a transit-oriented development in partnership with the City of El Cerrito. Eden and El Cerrito worked together to use the funds to enhance the Ohlone Greenway. To make the project successful, Eden had to work closely with both the California HCD and the City of El Cerrito staff.

Green/Sustainable Features: Hana Gardens achieved a gold level Green Point Rating of 116 points. The building is outfitted with photovoltaic solar panels that are estimated to reduce the common area electric usage by 65% as well as solar thermal panels that are estimated to reduce gas consumption by 50%. Bathrooms contain high efficiency plumbing fixtures and irrigation systems to minimize water use.

Resident Support Services: Services are provided to all residents free of charge by Eden Housing Resident Services, Inc. (EHRSI), an affiliate of Eden Housing. The on-site services coordinator provides referral services to community resources as well as one-on-one support to address individual needs, and amongst others, health and wellness, and skill building activities.

Corsair Flats and The Starling (Alameda Point)

171 West Atlantic Avenue & 170 Coronado Avenue, Alameda, CA

Overview: Located at the site of the former Naval Air Station, The Starling (70 units, formerly known as Alameda Point Family) and Corsair Flats (60 units, formerly known as Alameda Point Senior) are among the first buildings completed as part of the larger Alameda Point Site A redevelopment, led by master developer Alameda Point Partners. Through these two buildings, Eden delivered Site A's low-income and very low-income housing requirement. Corsair Flats is currently fully occupied, and The Starling is currently in lease-up.

Eden's Role: Site A at Alameda Point is the City's first major redevelopment project underway as part of the decades-long vision of redeveloping the former Naval Air Station. A key component of the vision is a substantial affordable component – 128 apartments affordable to low- and very low-income households. The Site A redevelopment includes hundreds of new units of housing, as well as brand new street, utility and transit infrastructure, including a new ferry terminal. Eden was brought onto the Alameda Point Partners team to deliver the vertical development of the affordable component by securing highly competitive state and local subsidies and unlock a unique site. Eden leveraged a land donation and cash contribution with significant funding from Alameda County, California HCD, and the Housing Authority of the City of Alameda. While the availability of funding and the result of competitive application

processes can be unpredictable, Eden has been aggressive in pursuing every available opportunity and maintaining flexibility in the projects' capital structures.

Placemaking and Amenities: The Starling and Corsair Flats were designed as complementary U-Shapes with three stories of residential units surrounding open courtyards located on top of the at-grade podium parking structure. This design affords each building a safe and private open space environment that is oriented to maximize sunlight and protect each courtyard from prevailing north westerly winds. In between the two communities is a 56' pedestrian public park, providing visual relief to the four-story massing and an open space amenity with shaded pedestrian and bicycle pathways.

Parking and Transportation Demand Management: The Starling and Corsair Flats provide a total of 98 parking spaces, all inside the podium levels of each building – 28 spaces in Corsair Flats and 70 spaces in Family. In addition, the community includes a significant commitment to sustainable transportation. The Family building includes a bike room with long-term parking to serve both buildings, and Eden is working with the Alameda Transportation Management Association to provide transit passes for residents. The larger Site A redevelopment includes a new ferry terminal within walking distance that provides a direct link to San Francisco, and AC Transit Route 96 has been routed through the development and provides service through Alameda and into Oakland.

Green/Sustainable Features: The Starling and Corsair Flats will incorporate innovative green design elements that maximize energy and water efficiency, making use of recycled materials whenever possible. As such, the projects exceed Title 24 energy and resource efficiency thresholds, which provides a healthier home for our residents and improves affordability by minimizing resident's utility costs. The project pursued GreenPoint Rated (GPR) certification through Build It Green, achieving a Platinum rating.

Lisa Maxwell, Community Development Director, Alameda | (510) 747-6899 | LMaxwell@alamedaca.gov

Project Name	Corsair Flats
Project Location	171 West Atlantic Avenue, Alameda, CA
Construction Schedule	Started March 2019 Completed July 2020
Development Cost	\$36,200,000
Lot Size and Density	.74 acres; 81 dwelling units/acre
Building Areas	73,247 SF of residential space
Units	60 total apartments (including 1 manager’s unit) 30 units for veterans and people formerly without homes
Incomes	20 to 60% AMI
Developer	Eden Housing, Inc.
Architect	KTGY Architects
Contractor	James E. Roberts-Obayashi Corp.
Property Operations	Eden Housing Management, Inc. Eden Housing Resident Services, Inc. Operation Dignity

Financing: Corsair Flats secured highly competitive 9% tax credits under the non-profit homeless assistance set-aside in 2018. By securing 25 Veterans Affairs Supportive Housing (VASH) vouchers and a California Veterans Housing and Homelessness Prevention loan, the project serves 28 senior veterans who exited homelessness while

leveraging the operating subsidy as permanent debt. In addition, the project includes an Alameda County AI Housing Bond Fund loan, a cash contribution from the master developer, and a Federal Home Loan Bank of San Francisco Affordable Housing Program (AHP) loan. Union Bank serves as the project’s tax credit equity investor as well as construction and permanent lender.

Funding Sources	Type/Program	Phase	Total Dollars

Cranes Landing

2245 Tienda Drive, Lodi | Affordable Senior Housing

Project Name	Cranes Landing
Project Location	2245 Tienda Drive, Lodi
Construction Schedule	Started in 2016 Completed in 2017
Development Cost	\$22,700,000
Lot Size and Density	3.39 acres; 23.5 dwelling units/acre
Building Areas	59,130 SF of residential space
Units	80 affordable rental apartments 79 1-bedroom senior rental units 1 2-bedroom manager's unit
Incomes	30-55% of AMI
Developer	Eden Housing, Inc.
Architect	Pyatok Architects
Contractor	Brown Construction

Overview: Cranes Landing is an 80-unit two story building that was carefully designed around two open air courtyards that enable sweeping views of and easy access to the

adjacent Roget Park. In addition to the nearby park, the community offers its senior residents easy access to a number of other amenities within walking distance including two neighborhood retail centers, Lodi Center and Sunwest Plaza.

The project was completed on time and on budget.

Placemaking and Amenities: The design of the project paid special attention to the adjacency of Lodi's Roget Park and included seamless connections to the park and lush bioswales along the edge of the property to transition into the Park's green space.

The design of the project also includes various building amenities meant to allow seniors to "age in place" -- thus preventing the need for people to move from one facility to another as their physical capacity becomes more limited. Examples of these features include two elevators and 5% of units built out according to Uniform Federal Accessibility Standards (UFAS). In addition, 2% of the units are equipped to suit the needs of the hearing or visually impaired, and all other units are adaptable for full accessibility and will include accessible features such as installed grab bars at tubs/showers and backing for grab bars at toilets.

Other on-site amenities include a community room with TV lounge, fitness room, computer lab and an outdoor patio.

Financing: 9% LIHTC, City of Lodi Funds, San Joaquin County Funds, MHSA, AHP, Wells Fargo (construction lender and equity investor).

Funding Sources	Type/Program	Phase	Total Dollars
City of Lodi	Soft Loan	Predev/Construction /Perm	\$494,536
San Joaquin County	HOME, CDBG Loan	Construction/Perm	\$839,667
FHLBSF –AHP		Perm	\$790,000
Wells Fargo	Equity	Construction/Perm	\$19,735,161
Deferred Developer Fee		Perm	\$137,685
Total			\$22,779,609

Resident Support Services: Services are provided to all residents free of charge by Eden Housing Resident Services, Inc. (EHRSI), an affiliate of Eden Housing. The on-site services coordinator provides referral services to community resources as well as one-on-one support to address individual needs, and amongst others, health and wellness, and skill building activities.

3. SITE PLAN AND PROPOSAL

CONCEPTUAL SITE PLAN

Project Overview

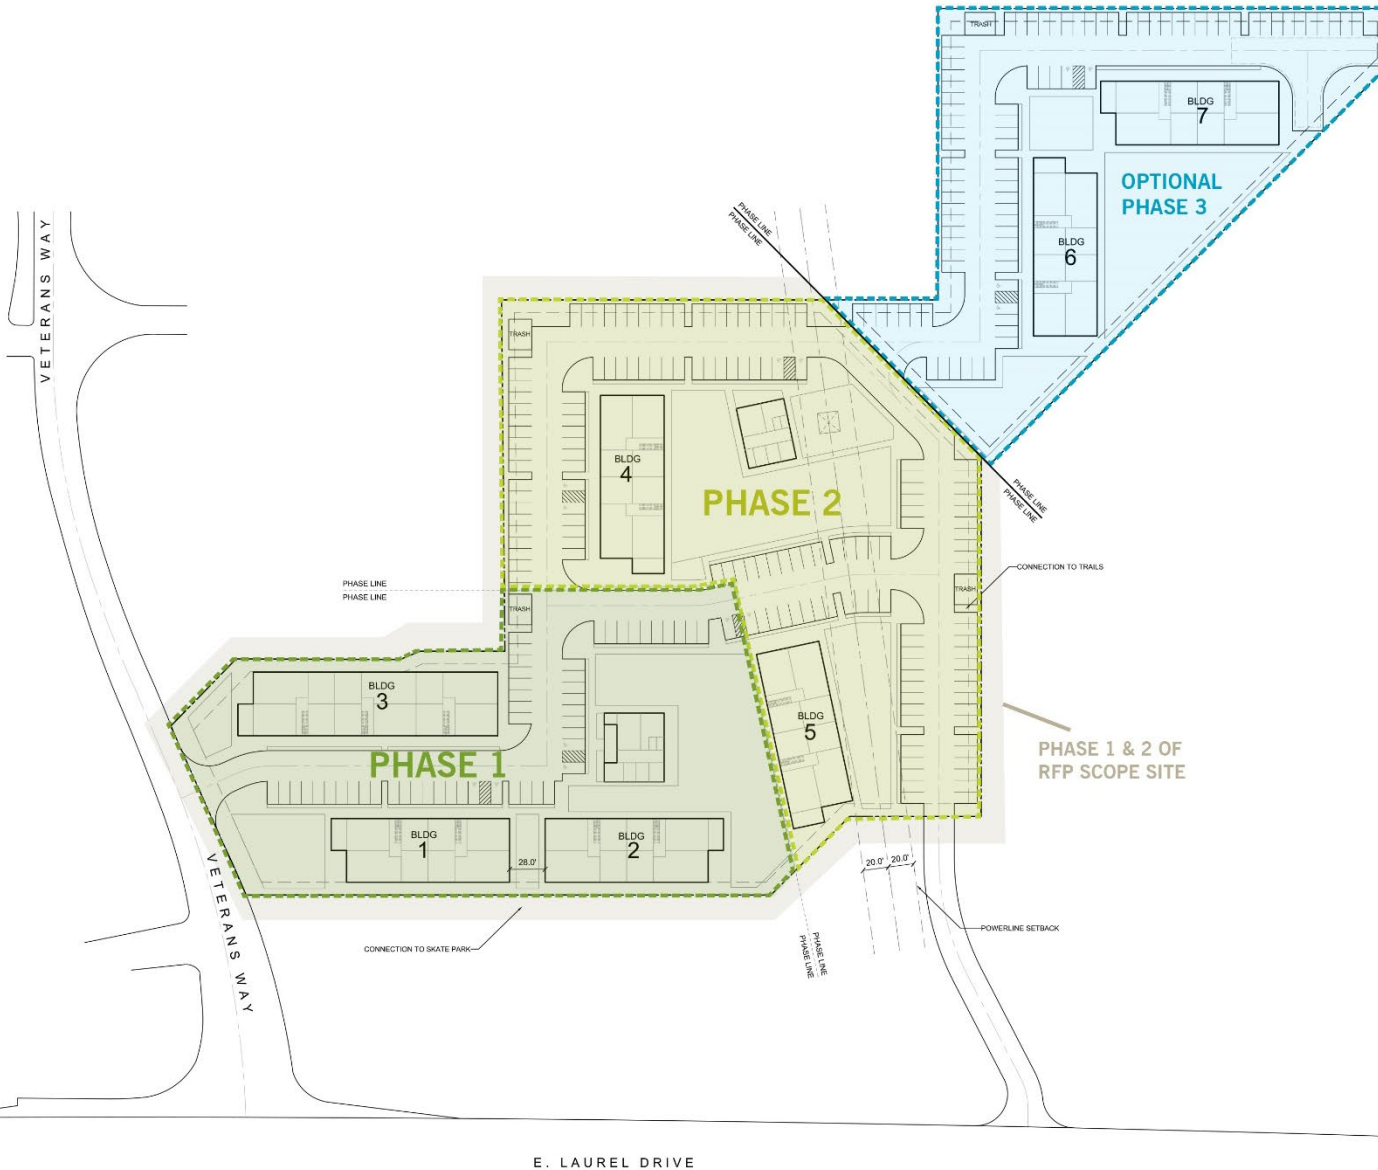

The East Laurel Drive site offers a terrific opportunity to create a marquis affordable housing development that can grow in phases and provide a picturesque hilltop perch for local families and individuals, particularly farmworkers participating in the area’s sprawling agricultural economy. The

Daphne Heights vision presented in this section represents one set of possibilities for the site – a starting point for a project that is co-creating with the City and County, as well as the community. Based on experience, Eden is proposing a site plan that is conducive to phasing, scaled to available financial resources, and designed to keep construction costs manageable. The site plan proposes investing in preparing the site to take advantage of the large area afforded, emphasizing welcoming landscaping ensconced by efficient, attractive walk-up buildings. Each phase of the project would meet the Large Family project type unit mix of at least 25% 2-beds and 25% 3-beds.

Two scenarios are presented below: the first is a two-phase development of 132 units on 5 acres, approximately the density and project area recommended by staff to take advantage of density bonus and potential CEQA exemptions. The second scenario incorporates additional land that staff suggested could be made available. The additional land is added to the second phase in the first alternative to create a total of 180 units. A summary is below. Eden welcomes discussion of all the levers that could be pulled to adjust the project’s size and density. More ideas related to project possibilities are in the financing section.

	Scenario A		Scenario B (Extra Land)
Phase 1	84 Units in 3 Buildings 1 Clubhouse Portion of Original 5 Ac RFQ Area	Phase 1	84 Units in 3 Buildings 1 Clubhouse Portion of Original 5 Ac RFQ Area
Phase 2	48 Units in 2 Buildings 1 Clubhouse Portion of Original 5 Ac RFQ Area	Larger Phase 2 (Phase 2 and Phase 3 Areas)	96 Units in 4 Buildings 1-Clubhouse Portion of Original 5 Ac RFQ Area + Additional 1.85 Ac
TOTAL	132 Units, 5 Ac	TOTAL	180 Units, 6.85 Ac

CONCEPTUAL PHASING PLAN

Initial Phase

Phase 1 Overview

Structure	Use	Size
Building 1	24 Units Residential	19,800 SF

3-Bed	60 % AMI	5	\$1,479
Total	47% Average	96	
	<i>Farmworker Units</i>	49	

Project Design Narrative

PHASE 1 - VIEW OF COMMUNITY BUILDING LOOKING EAST

The proposed site plan and overall design are inspired not only by the City's rich agricultural heritage but also by the site's vibrant setting surrounded by open space, parks, soccer fields, recreation trails, and a future track and skate park. The multi-phase community of 180 family and farm-worker apartments is housed in 3-story breezeway-type buildings each with its own communal laundry room, organized around three outdoor recreation and activity areas, two of which (in phases 1 and 2) are anchored by a single-story community building which houses indoor recreation spaces such as community rooms, fitness centers, and after-school activity areas in addition to leasing and management offices and various resident-serving facilities. Outdoor recreation amenities include two tot-lots and various play areas, BBQ's and communal gathering spaces, open activity areas, as well shaded seating pockets.

In addition to orienting buildings to actively engage the on-site open amenities, the site plan is shaped by existing utilities and constraints including a storm water easement running primarily along a north-south axis, and a sewer line that runs primarily along an east-west axis. This is in addition to observing the required setbacks from the existing power lines overhead, running in a northerly direction in the eastern half of the site. The community is accessible by vehicles from Veteran's Way, while a second access point is located along Laurel Street for use by emergency vehicles. The existing stormwater drainage swale would be replaced by an underground drainage pipe in order to ensure connectivity of pedestrian and vehicular circulation and maintain an accessible path of travel throughout the site.

The architectural vernacular embraced by this community of one to 3-story buildings is inspired by the utilitarian beauty and simple but striking forms characteristic of agrarian architecture. The proposed building massing and roof forms of the 3-story residential buildings are intended as playful silhouettes articulated by the interplay of shed dormers

with extended eaves, bay window cantilevers, and sculptural shade elements resulting in a rich variety of roof forms and building elements that engage the ground level. The single-story community buildings take on a simple but iconic barn form with a prominent central gallery and clerestory windows to promote natural lighting and ventilation.

Materials and textures include exterior cement plaster, board-and-batten siding, and various metal shade elements such as awnings, canopies, and brackets supporting deep overhangs, in addition to prominent gable-end ventilation grills and standing seam metal roofing applied to lower shed roofs. Colors range from whites to neutrals for cement plaster planes to more saturated and vibrant tones applied to siding surfaces.

PHASE 2 - COMMUNITY BUILDING & CENTRAL RECREATION AREA

4. PROJECT FINANCING AND SCHEDULE

Corporate Financial Capacity and Track Record Securing Financing

Eden Housing was the first developer in the State of California to receive tax credits and has been continually successful acquiring 9% and 4% tax credit allocations ever since. In the last two years, Eden has closed 15 deals with a variety of debt and equity partners. Eden has extensive experience with institutional and private financing that includes conventional construction and permanent loans, tax-exempt bonds, and low-income housing tax credits – both the competitive 4% and 9%, and hybrid 4%/9% programs.

Over the past decade, Eden projects have obtained long-term loans totaling over \$700,000,000 for its projects. In addition, Eden is currently in construction or in the post-construction stabilization period on 12 projects across the state of California. The construction-period loans for these projects total \$295 million and are with a variety of lenders including JPMorgan Chase, US Bank, Wells Fargo, RaboBank, and Union Bank.

Eden has had a strong operating history, meeting or exceeding its budget for the past 10 years. Eden ended last year with the strongest cash position we have had since our inception over 50 years ago. Eden anticipates maintaining a strong position for the next five years, based on our receivables and development pipeline. We are diversifying and enhancing our revenue base and expect that we will be able to maintain a strong financial position into the future.

Approach to Obtaining Financing for the Project

As noted in the financial capacity section above, Eden has extensive experience with institutional and private financing that includes conventional construction and permanent loans, tax-exempt bonds, and low-income housing tax credits – both the 4% and competitive 9% programs – that is used to finance affordable housing communities. Each phase of the project are currently underwritten as a 4% execution with soft debt from the City (or County as available) and the State's Joe Serna, Jr. Farmworker Housing Grant Program and Multifamily Housing Program. We anticipate half of the units will be restricted for Farmworker housing in order to qualify for the Serna program.

Project-Based Vouchers are likely necessary in order to support a practical and competitive unit affordability mix under each state program. Since each component of the project will meet the Large Family housing type, there is flexibility to adjust the target populations and financing strategy to pursue alternative programs – the 9% tax credit program for example. In addition, the project has been designed as Type V

garden-style walk-up buildings, which helps to limit overall hard cost per unit, offsetting the potentially intensive level of site work required.

A full breakdown of projected sources by phase follows.

Initial Phase / Phase 1 (84 Units)

Permanent Funding Source	Funding Type	Details	Total Dollars
City of Salinas	Soft Loan	Soft costs during Predev	\$500,000
Local Funding	Soft Loan	E.g. HOME, CDBG, HAS	\$3,500,000
CA HCD	Soft Loan	MHP	\$7,324,699
CA HCD	Sponsor Loan	Joe Serna	\$11,716,463
Limited Partner	Equity	LIHTC Equity	\$24,970,270
General Partner	Equity	Deferred Developer Fee	\$233,172
General Partner	Equity	Non-Priority Deferred Fee	\$4,467,294
Bank Debt	Permanent Loan	Leveraging PBVs	\$2,954,232
Total			\$55,666,760

Permanent Debt: The project includes a permanent mortgage, which is shown in a single tranche that leverages Section 8 overhang. Tenant rents up to restricted AMIs cover operating expenses on this project. We have assumed interest rates consistent with the current market for debt. The project reflects 21 Section 8 vouchers, which are layered on farmworker units restricted at 50% AMI to enable deeper affordability for this target population. As noted above, Eden’s strong track record with conventional lenders will allow the project to get competitive rates and terms for debt financing.

Local Funding: Our underwriting for this phase of the project includes two line items for funding from the City of Salinas. First, we have included the \$500,000 noted by City staff as available for soft costs during predevelopment. While it will likely cost several million dollars to bring the project to construction financing close, this initial loan will help Eden support continued feasibility analysis prior to obtaining site control. An additional \$3,500,000 is underwritten at construction financing close to help close the project’s funding gap and increase competitiveness for State funds. This source could be offset should other funds become available that are a good fit for the project, particularly County funds. Eden would work closely with the City to determine which funding source – be it CDBG, HOME, ARPA, or HSA– works best for the project and the City.

California HCD Funds: The location of the site in the Salinas Valley makes the project a terrific fit for the Joe Serna, Jr. Farmworker Housing Grant Program. This program has recently been dovetailed with the MHP program through the SuperNOFA process, with projects recommended for Serna grants obtaining priority for MHP funds. Both resources would help to close the lion’s share of the project’s funding gap. Competitiveness for these programs requires the Large Family housing type, a relatively low average affordability, leveraged soft financing and a favorable cost control profile.

Low-Income Housing Tax Credit Equity: We have structured this phase as a bond-financed 4% tax credit execution that includes both Federal and State credits, a structure that Eden has used many times. Though allocation of private activity bonds through CDLAC has grown competitive, Eden's projects have repeatedly competed favorably in recent years. A key aspect of maximizing tax credit equity will be to structure the project to maximize tax credit eligible basis. Eden has a strong team of counsel and auditors who can assist us to make sure that as much of the project scope as possible can generate tax credits. We have assumed a \$0.92 investor pay-in per dollar of Federal tax credits and \$0.80 per dollar of State credits, which leaves room for the unpredictable nature of equity pricing. Eden is well regarded by both direct investors and tax credit syndicators and routinely obtains highly competitive pricing on each project.

Deferred Developer Fees: Consistent with the regulations for the 4% tax credit program, this project assumes a net developer fee of \$2,200,000 and \$233,172 in priority deferred developer fee paid from cash flow in the first 12 years, as is customary. Another \$4.5 million is underwritten as non-priority deferred fee or GP capital, which would be paid from Eden's share of residual receipts. This structure allows the project to maximize eligible basis, which is used to determine the amount of tax credits.

Scenario A/Phase 2 (48 Units)

Permanent Funding Source	Funding Type	Details	Total Dollars
Local Funding	Soft Loan	E.g. HOME, CDBG, HAS	\$2,400,000
CA HCD	Soft Loan	MHP	\$5,914,710
CA HCD	Sponsor Loan	Joe Serna	\$6,898,255
Limited Partner	Equity	LIHTC Equity	\$15,434,609
General Partner	Equity	Deferred Developer Fee	\$303,667
General Partner	Equity	Non-Priority Deferred Fee	\$1,762,035
Bank Debt	Permanent Loan	Leveraging PBVs	\$2,635,617
Total			\$35,348,893

Scenario B/Larger Phase 2 (96 Units)

Permanent Funding Source	Funding Type	Details	Total Dollars
Local Funding	Soft Loan	E.g. HOME, CDBG, HAS	\$3,500,000
CA HCD	Soft Loan	MHP	\$8,481,676
CA HCD	Sponsor Loan	Joe Serna	\$13,406,800
Limited Partner	Equity	LIHTC Equity	\$27,893,862
General Partner	Equity	Deferred Developer Fee	\$230,596
General Partner	Equity	Non-Priority Deferred Fee	\$5,278,500
Bank Debt	Permanent Loan	Leveraging PBVs	\$3,106,490
Total			\$61,897,926

Permanent Debt: Each scenario contemplates a similar number of project-based vouchers. Typically, a housing authority may cap the number of vouchers in excess of 25% of the total project units unless the project incorporates Special Needs units. This may be an approach worth considering. In addition, each scenario contemplates similar per-unit operating costs based on Eden's local comparable properties. However, there may be opportunity to create operating efficiencies between phases.

Local Funding: Similar to the first phase, both scenarios will require local funding in order to help close the project's financing gap. However, it's worth noting that the larger project incorporates some economies of scale, stretching fixed transaction costs across a larger number of units. Approximately 50 units is typically Eden's minimum viable project size.

California HCD Funds: Each scenario contemplates a similar split of Serna and MHP funding to the first phase.

Low-Income Housing Tax Credit Equity: Both scenarios use similar assumptions to the first phase on LIHTC equity. However, if a smaller second phase were deemed the best path forward, an alternative execution with 9% tax credits could also be worth considering.

Deferred Developer Fees: Each scenario for the second phase shows a similar developer fee structure to the first phase. Eden's development staff time expended per project tends to be fairly flat across project size until a project is broken into phases.

Phasing and Flexibility Discussion

As noted previously, this proposal and financial sketch of Daphne Heights is merely a starting point and can be easily adapted depending on City and County needs and considerations. Eden's team is well equipped to collaborate with our governmental partners and identify pros and cons associated with tweaks to the development program. When selected, any number of the following changes would be wide open for discussion:

- Adjusting the project's phasing structure to better adapt to funding capacity in current and future years
- Adding density on the site by building above common spaces, considering taller buildings, or considering double-loaded buildings in order to deliver more units or leave more land available for future growth
- Evaluating the cost and benefits of adding elevators
- Reducing density on the site to further control costs or change the character of the project
- Considering adjusting the unit targeting for any or all of the phases to add Special Needs or even Senior units
- Further evaluating the parking ratio and design, evaluating the costs and benefits of features such as tuck-under parking or carports.
- Discuss programming opportunities to activate the site such as a farmer's market or other uses valuable to residents and the larger community

Project Schedule and Process

Our project schedule produces the first 84 new homes 5 years from developer selection.

The project site has been identified by the City and County as an opportunity to make a large dent in the region's housing shortage by putting underutilized public land to good work. It is our understanding that City staff anticipate working closely with the developer of this project as they prepare a general plan update that will include the project site. In addition, we understand that the current general plan designation allows multifamily use with a Conditional Use Permit, which may be able to be paired with a CEQA infill exemption for a project under five acres.

The Scenario A plan for Daphne Heights would fit into a density bonus permitted density for the site and would meet the five-acre benchmark. However, Eden has gained significant experience with additional CEQA exemptions as well as streamlining provisions that would enable ministerial approvals. We have also pursued and repeatedly succeeded in more traditional

rezoning pathways. If selected, Eden would collaborate closely with the City to determine the most efficient and defensible entitlement process and then take the lead in moving it forward. That said, this does not preclude an extensive community outreach process. Eden would pursue a collaborative process with the community to ensure that the project that is submitted for approval has had the opportunity for community review.

Additionally, but not required to be completed prior to project approval is review under the under National Environmental Policy Act ("NEPA"). NEPA is a financing requirement in the likely event the project uses federal funds and is a six-month process for third-party report completion, public review and comment, and state agency approval. In order to obtain the most flexibility in financing, we will pursue this approval process. For the first phase, we are assuming the timelines and milestones below. Many processes can and will occur simultaneously, and some work on the second phase can occur simultaneously with the first.

If selected by the City and County, we could kick off community outreach as soon as possible to inform the design efforts early on.

Eden Housing will draw upon half a century of experience with building affordable housing to deliver units as quickly as possible.

Eden Housing has been building affordable housing since 1968. With that comes experience with innovative strategies to accelerate the delivery of units. Some strategies that may be used for this development include:

- Cultivating a proactive and cooperative relationship with the City of Salinas to expedite application processing timelines and ensure the project is scheduled for review in a timely manner.
- Early engagement of a general contractor and key trades during the design process to identify conflicts and efficiencies before construction starts.
- Expansion of labor crews at critical points during construction, such as framing and drywalling.
- Utilizing techniques such as prefabrication of wall and floor-ceiling panels off-site.

Phase 1 Schedule

Milestone	Start Month/Year	End Month/Year
Selection of Developer	June 2022	August 2022
Exclusive Negotiations Agreement	September 2022	November 2022
Community Outreach and Concept Design	August 2022	November 2022
Lease Option Agreement	November 2022	January 2023
Schematic Design and Entitlements	December 2022	June 2023
Local and State Gap Funding Applications and Awards	July 2023	August 2024
Tax Credit Funding Application and Allocation	August 2024	November 2024
