Narrative: I was contacted by dispatch at approximately 3:07 pm to contact the Monterey Fire Dept regarding a sewage release at 851 Hellam St. I spoke with City of Monterey Fire Dept (Capt Okon) and he indicate the release was from a private property and stopped, and the affected area disinfected. A small volume did go into the stormdrain at Hellam St & Monroe St. The fire dept contacted the occupants at 833 and 851 Hellam St. to advise that they minimize the usage of water at the time. I spoke with the property manager for 851 Hellam St (via phone, Clayton Lettong, Peninsula Group Realty) who indicated that it is possible the back-up could be caused by blockage at 831 Hellam St. The occupants at 833 and 851 Hellam St indicated that there was no water or sewage backing up into their residence and will minimize usage until the issue is resolved. The sewage that was released was/is not recoverable. The issue will be forwarded to the EHB Consumer Health Protection Office in Monterey and the City of Monterey Wastewater Division.

Incident Status:	
<input type="checkbox"/> No Further Action	<input checked="" type="checkbox"/> Health Department Follow-up Warranted
<input type="checkbox"/> Referred to other Agency or Department for follow-up:
