Narrative: I received a call from Marina Fire Dept. regarding an automobile oil leak flowing down the street at White Circle in Marina. I called Capt. Mark Sweeney, who was currently on-site, he described the source of the leak from a parked automobile in the street but was unsure if it was the oil or fuel. He informed me that they were able to contain and stop the flow of the spill after it had traveled about 4 houses downhill from the source. Marina Public Works was contacted to assist with the cleanup. He also requested Marina Police Dept. to identify the owner of the vehicle. I arrived on-site and confirmed that the spill did not make it to any storm drain. I talked to the owner of the vehicle, he stated that he hit a culvert earlier with his vehicle but he was unaware of the leak. Cleanup was completed by Public Works, the absorbents used were taken back to their facility for proper disposal.

Incident Status:	
<input checked="" type="checkbox"/> Mitigated No Further Action	<input type="checkbox"/> Health Department Follow-up Warranted
<input type="checkbox"/> Referred to other Agency or Department for follow-up:
