Name of Committee: Jonathan Ahmadi for Monterey Peninsula Airport District Board, Division 1

Candidate Statement:

I am running to represent Seaside and Sand City as your member of the Monterey Peninsula Airport District Board. Our community deserves to be represented by honest and accountable leaders with experience and passion for public service and community organizing.

I know how to do this job. I partner with hospitals undergoing transformative expansions by coordinating project plans, leading committee meetings, and facilitating successful activations of new healthcare facilities. As Senior District Representative for a Congresswoman, I connected the needs of the community to Washington D.C. I've served as a non-profit board's Vice President, providing resources for LA County veterans. My degree is in aeronautical engineering.

As construction begins on a brand new airport terminal in September 2025, my experience in opening new facilities, fostering community engagement, and serving as a non-profit board member will help me to lead the transformation of our airport.

Congressman Panetta secured \$22 million in federal tax dollars for this project. I want to prioritize investment in our community by hiring local tradesmen and women to build our new airport.

I am honored to be supported by many local elected officials and community leaders that endorse my vision. I respectfully ask for your vote.
