I am an excellent candidate for the school board member. I am an active participant of the community at San Ardo School. Not only do I serve as a current board member at San Ardo School, but I have also chaperoned school field trips and coached school sports. I have demonstrated leadership, motivation and a positive influence through my four years of coaching boys' and girls' soccer and volleyball at San Ardo School and the 12 years of holding a position as a school board member at San Ardo School Elementary. My three daughters, now adults, have attended San Ardo School as well as my grandchildren.

I believe the role of a school board member is honesty, communication and making the best choices for the students and the community. My goal is to bring in more educational resources that the students need to achieve their academic goals.
