

Occupation: Attorney at LAW / Businessman

The "Citizens of Monterey" are at the top of the City of Monterey Organizational Chart. ([Monterey-Org-Chart.pdf](#)) I will remind the Council of this throughout my term, should I be honored with election. I have served nine years on the Neighborhood and Community Improvement Program (two as vice chair) and twelve on the board of the Monterey Vista Neighborhood Association (the last three as president). Please see my achievements at www.jeanrasch.com. I am a tried-and-true workhorse poised to continue advocacy for my neighbors. I will listen and consider all sides, reflecting my disciplined legal training and practice. I will be available to hear constituents' views. I will continue to demand public inclusion and government transparency. Instead of change for change's sake, I support thoughtful consideration of issues. We, the citizens, are the ones living with often rapid change that may be unnecessary, or that reduces choice and freedoms. I believe deeply in respect for all individuals, in the value of healthy neighborhoods, in hard work, dialogue with business and staff, and a healthy world for future generations. Citizens want kindness, partnership, independent leaders, an effective Council, and a visionary city working for us all. The welfare of citizens will be my full-time focus.
