

I am Lauren Patterson and I am running for School Board. After serving on the School Site Council at Elkhorn Elementary I have a better understanding of our district's challenges. Students and their families deserve to feel safe, comfortable, and happy about their decision to live in our area.

As a parent and behavioral specialist, I feel deeply connected to our children's futures.

I am running in order to better the community and to help all children at all levels in our school district.

My priority is to address
student safety concerns
fiscal responsibility
achievement
and college readiness

Our district is at a crossroads, we have the opportunity to make a difference now. I look forward to supporting that change.
