

Scott Funk

Director Ag Business Affairs

As a resident of Gonzales since 1999, me and my wife Liz are proud to call Gonzales our home, raised our two boys, and have seen them graduate from GHS and into college. We have been an active part of the community, schools, and community groups and plan to continue to ensure our community has programs and activities that advance the opportunities for youth & seniors. I have worked in the financial industry for 18 years and in the Ag & Farming industry for the past nine years. While working, I have earned a Bachelor in Business Administration degree and have added a Masters in Accounting & Finance as well.

I have been a part of the City Council since 2008 and look forward to continuing to serve the community of Gonzales. I currently represent our community's interests and am an advocate within the county and region for our City in its plans to have future smart growth and add key community essentials. I am proud to call Gonzales my home.
