

Vicki Morris, Incumbent

Candidate for Aromas Water District Board of Directors, 2024

As a 44 year resident of Aromas and nearly 25 year employee (1993 -2017) of the Aromas Water District (AWD) I am uniquely qualified to be re-elected to the Board. As General Manager of AWD, I was responsible for building infrastructures, including new wells, water treatment, solar field development, water conservation and all fiscal responsibility critical to our small community. The past four years as Director and now Board President allows me to continue my service to AWD. Keeping the residents in AWD safe with quality drinking water has been and will continue to be my priority. I am honored to have your vote and will diligently serve the AWD as I have for 29 years, keeping this agency a vital part of our community.
