

CANDIDATE STATEMENT OF QUALIFICATIONS

Alexis Garcia-Arrazola

Occupation: Seaside City Councilmember

Dear Neighbor,

Over the past four years, I've had the privilege of serving you and working to build a stronger, more vibrant Seaside. Together, we have achieved significant strides in key areas vital to our community's future.

We have invested in small businesses, creating an environment for local entrepreneurs to thrive. Our infrastructure projects and historic park investments have revitalized our city, prioritizing residents and preserving treasured spaces.

Through partnerships with higher education institutions, we created a paid internship program, providing university students with invaluable experiences in local government.

Community safety has been fundamental. We implemented measures, including innovative technology and enhanced emergency response capabilities, to create a safer environment. Investments in mental health services and Community Social workers address root causes of crime and support vulnerable residents.

In response to recent winter storms, I introduced a climate action plan prioritizing environmental resiliency, positioning Seaside as a leader in sustainability.

For the first time in 20 years, Seaside is seeing new housing development, addressing our housing crisis and meeting state mandates.

Our journey does not end here. With your support, we will continue to build a thriving, inclusive, and sustainable Seaside.

Sincerely,

Alexis Garcia-Arrazola
