

Luke Kilpatrick

Developer Relations Engineer

43

My name is Luke Kilpatrick. I am a proud father, business owner, and resident in Sand City. I have lived here since 2020, and I can't imagine living anywhere better.

After the events of 2020 made remote work an option for me, I took the opportunity to buy my dream home on Ocean View Avenue. My neighbors in Sand City are some of the most amazing people I have met and as a council member, I will endeavor to serve them well.

Throughout the last four years I have attended most of council meetings, both in person and remotely, keeping up with the happenings in our city and the county at large. I have had the pleasure of speaking up on behalf of my neighbors as well as fellow business owners about matters that affect us all. In my career, I have worked in everything from manufacturing to art to high tech, all industries calling Sand City home.

Our city is an up and coming home for growth in Monterey County. We need council members who are representative of the next generation of leaders who can help Sand City take advantage of the future opportunities before us.
