

**COPY**

Having lived in the Soledad area for many years, I have been able to serve on the Health Care Community District Board. Our local Rest Home and Clinic are a real asset.

The Clinic's response to the COVID epidemic was a convenience for many residents. The program for pregnant women to enable them to attend monthly visits allows them to earn a full stroller or car seat for their new infant. Our doctors perform sports physicals for our local students.

The women's center was mainly built with a mammogram machine, so residents do not have to go out of town. A 3D ultrasound is available with other necessary equipment.

Having local facilities for residents is a help to all. Besides health care, the Rest Home has a beautiful garden and handy snack shop for residents and their families.

There being a local facility for long- or short-term care that is easy to get to is something I am interested in continuing to serve on as a board member.
