

City Council election
Benjamin Caldera
District 3

Candidate Statement:

If elected to the city of Soledad council District 3, will serve the constituents of my district and represent their needs as well as the needs of our small community, integrating all the needs in general. I believe i can help bring a positive forward change to our community.

I have lived in this community since the mid 70's, after 33 years of employment with the city of Soledad I retired, therefore I have seen it grow from a small town to an accommodating place to live and work.

I love my community so much that in 1989 before the loma prieta earthquake i volunteered as a firefighter to give my community something back, putting my life on the line numerous times, and once getting run over, thankfully it was a short stay in the hospital and a hairline bone fracture. Shortly after was voted firefighter of the 1992 year, having many successful rescues under my belt. My career with the department extended from 1989-1999.

I now surround myself with my children and grandchildren.
