

COMING SOON!

myHealthPointe

We are excited to share that myHealthPointe will be available to members to view their health information in an easy and convenient way. We hope that this tool will empower members, improve collaborative care planning, and remove barriers to access records. Some of the features available through this portal include:

- **Viewing person information including diagnosis, medications, progress notes, etc.**
- **Signing up to receive email or text appointment reminders**
- **Forwarding progress notes via email**

**For additional information
