

MCWRA Meeting Notice

INTERLAKE TUNNEL & SPILLWAY MODIFICATION PROJECT

-
- Subject:** Presentation of the proposed Interlake Tunnel and San Antonio Spillway Modification project
- When:** Thursday, February 26, 2015 6:00 – 7:00 PM
- Where:** Heritage Ranch Conference Room – Rec Barn
2555 Equestrian Road, Heritage Ranch
- Purpose:** To present the concepts of the proposed Interlake Tunnel and San Antonio Spillway modification project to the property owners and residents in the Lake Nacimiento and Lake San Antonio vicinity.
- Objectives:**
- Present the conceptual design and operation of the proposed tunnel and spillway modification project to lake area residents, boaters and fishermen.
 - Receive input from the public regarding suggestions, ideas or concerns to address in the development of the projects.
 - Answer questions.

The Monterey County Water Resources Agency (MCWRA) will make a presentation to the residents, property owners and lake users regarding the proposed Interlake Tunnel and San Antonio Spillway Modification project as noted above.

The proposed Interlake Tunnel is a gravity flow water conveyance tunnel approximately 10 feet in diameter and 11,000 feet long connecting Nacimiento and San Antonio reservoirs. The Spillway Modification project proposes modifying the existing spillway at San Antonio with a crest control device to provide an effective 10 foot increase in the maximum lake elevation increasing the storage capacity of the reservoir by approximately 60,000 acre feet.

More information about the projects can be obtained on the MCWRA website at (<http://www.mcwra.co.monterey.ca.us/index.php>).
