Marti, if you look at page B-9 in the Pattern Book, you will see in the lower right hand corner that "carriage units" are allowed on the "preserve lots". This will allow 28 additional units for sure and I assume an additional unit for the custom single family home. To my mind this brings the total number of units up from 281 to a grand total of 310. Each of the "preserve units must also provide one parking spave. My question to use is what in the devil is a "carriage" unit and does it count as meaning another unit for the standrard inclusionary total. If so, the incusionary count would be increased from the required 20% of 281 (56.2 inclusionary) to a grand total of 20% of 310 (62 inclusionary). This is another thing I would like discussed at the next HAC. Best to you, Margaret

Start the year off right. Easy ways to stay in shape in the new year.
