Re: 1170 Signal Hill Road, Pebble Beach, CA

Delinda,

My client, Massy Mehdipour, recently informed me that the County of Monterey (County) is preparing the Initial Study (IS) for the proposed project at 1170 Signal Hill Road, Pebble Beach (the Project). Ms. Mehdipour has requested that I forward to you a copy of the materials and information that resulted from the requested evaluation/survey conducted by request of the County, and an explanation of the subsequent findings.

It is important to note that the subject property was evaluated first in 2010, and peer reviewed by Circa: Historic Property Development (Circa) in 2011. The following is a chronology of reports and report amendments that have been produced in an attempt to address the issue of the alleged historic status of the property.

Property Evaluation Chronology

April 7, 2011 Circa: Historic Property Development (Circa) provided a letter memo as a rebuttal or "peer review" to the 2010 claim that the subject property was a historic resource meeting the California Register of Historic Resources for its association to Richard Neutra. This memo also included details of the existing condition, alterations to character defining features and therefore lack of integrity.

August 4, 2011 meeting where the HRRB did not discuss the issue of the subject property's association with Neutra or the obvious lack of integrity discussed in the April 4 Circa memo but introduced a new issue, that of the second phase of the Bay Area Tradition (also known as the Second Bay Area Tradition). County staff asked Circa to revise the April 7th report to include a discussion of "the American International or Contemporary style"¹ of residential architecture.

October 14, 2011 Circa submitted a revised memo including a discussion of "the American International or Contemporary style" of residential architecture.²

October 24, 2011 Circa attended a meeting with County staff to answer any questions regarding the revised report. At the meeting Circa made the observation that the previous property evaluation³ did not include the County's criteria for historical resources. Meg Clovis requested that my client provide such an evaluation.

¹ In 2011 the County did not have a definition or context for American International or Contemporary styles.

² In the revised report Circa utilized the more commonly used terms of "Modern" and "Modernism" for consistency with published documentation.

³ Kirk, *Historic Resource Evaluation 1170 Signal Hill Road, Pebble Beach/DPR 523 a&b*, October 2010.

November 17, 2011 Meg Clovis communicated via email that the Circa evaluation should specifically address the statement in the 2010 DPR form that "Architecturally, the house draws more on the ideals of the International style than the Bay Area Tradition." Meg requested that the report include a comprehensive definition and context of the Modern Style of architecture⁴ in Pebble Beach, and a property comparison.⁵ In order to provide this information it was apparent that a survey of modern residential architecture in Pebble Beach would be necessary. It was agreed that the property survey would apply only to residential properties built between 1944-1962, and be solely contained within the boundaries of the community of Pebble Beach.

December 2011 Circa developed the historic context for Modern/Modernism in Pebble Beach. The historic context provided a broad framework within which to evaluate the modernist buildings and landscapes.

January 2012 A comprehensive list of all properties built in Pebble Beach between 1944-1962 was obtained and mapped.⁶ The mapping of the entire Pebble Beach community was completed and then divided into north and south sections. An index was created showing the addresses and dates of construction for approximately 900 properties and each address was keyed to the map. The maps and index were utilized in creating the area route for the property-by-property "windshield" survey.

February 2012 To compare like-properties and to capture photographs of over 525 properties the subject property was used as a center point and the survey route radiated outward. The photographs and field notes were used to identify those properties that had similar setting/views as the subject property. Property counts for each category identified were:

- 64 "3" = view of ocean and golf course (including 1170 Signal Hill)
- 20 "2" = view of ocean only
- 50 "1" = view of golf course only
- Remainder "0" = none of the above or view of property obstructed

May 18, 2012 Circa submitted the findings of the survey and evaluation for discussion at the May 23rd meeting with County staff. The survey report found that:

- 134 modern residences immediately neighboring the subject property share a similar setting,
- all 134 immediate neighboring residences contain important characteristics identified with modern residences including the absence of ornament and detail, and the use of technologies, materials and construction techniques of the time, and
- all 134 residences architecturally embrace the philosophy of indoor/outdoor living and represent a particularly unique and rarified setting.

The report concluded that 1) the 134 residences represent only a small percentage of a much larger group of modern residences within the Pebble Beach community, 2) the subject property

⁴ At the October 24th meeting Meg Clovis stated her lack of knowledge regarding Modern architectural style's characteristics and historic context, and to-date was relying solely on statements made by Kirk.

⁵ Property comparisons are not typical of the County's Phase Two Assessment process. Comparisons are usually reserved to address the issue of "rarity" or "last remaining property" as defined by the NPS.

⁶ Maps produced by Jill Bourget and photos by Matthew Sundt for Maureen Wruck Planning Consultants, LLC. Research utilized the Monterey County's Assessors Books 007 and 008 (Del Monte Forest) 009 (Carmel Unincorporated) and 241 and 243 (Carmel Highlands – HWY 1 to Palo Colorado Road).

does not retain integrity, 3) the subject property is not a rare example of the Modern architectural style in Pebble Beach, and 4) the subject residence is not "...an important and relatively early example of modern architecture in Pebble Beach.

May 23, 2012 A joint meeting with County staff, Mike Novo, Massy Mehdipour, John Bridges and myself reviewed the breadth of information provided in the May 18th survey report by Circa. The meeting also included the acknowledgement of a third party peer review of the 2010 Kirk evaluation that also found flaw with the Kirk evaluation,⁷ and a discussion of possible mitigation measures.^{8,9} No questions were raised about the report content, however, it was requested that the maps, photographs and accompanying matrices developed as a result of the survey process be made available to the County. It was requested that Meg Clovis meet with Sheila McElroy review the materials be more closely out the joint meeting.

June 7, 2012 Sheila McElroy (Circa) met separately with Meg Clovis (Monterey County) to review the survey materials and data, and to provide a second opportunity to discuss the material and answer any questions. Eleven maps and two matrices¹⁰ were made available and reviewed by the County:

- one (1) overall PB aerial view map numbered corresponding to an Excel spread sheet of addresses and attributes (date, square footage etc), and color coded to building phases: 1944-1949, 1950-1959, 1960-1962
- one (1) aerial view map of the north section/focused study area
- one (1) aerial view map of the south section
- eight (8) detailed aerial view maps of the north/focused study area

The photographs were organized into multiple folders listed by address;

- 2012_01_14 contains 52 photos
- 2012_01_15 contains 127 photos
- 2012_01_17 contains 151 photos¹¹
- 2012_01_18 contains 181 photos
- 2012_01_19 contains 120 photos¹²

Meg Clovis examined the maps and photographs, and expressed surprise at the volume of residences that met the characteristics of Modern architecture. Again, no questions were raised about the report content or the validity of the survey findings. At the conclusion of the meeting there was no challenge of the findings of the comprehensive survey and evaluation: the residence at 1170 Signal Hill Road does not meet the Monterey County Criteria for Evaluation of Historic Resources and therefore is not considered a historic resource at the national, state or local level.

I believe that our extensive documentation, reports and revisions, and peer reviews have exhausted any doubt that the property at 1170 Signal Hill Road, Pebble Beach has been carefully

⁷ Chattel Architecture, Planning and Preservation, Inc. April 19, 2012.

⁸ Circa provided a letter on April 7, 2011 outlining various mitigation options that the HRRB declined to discuss or give an opinion even though they were asked to do so.

⁹ Paul Adamson, DCOMOMO board member, also provided a mitigation measures letter on June 7, 2012.

¹⁰ Disk titled Matrices & Maps enclosed.

¹¹ Photo Disk 1 contains folder 2012_01_14, 2012_01_15 and 2012_01_17.

¹² Photo Disk 2 contains folder 2012_01_18 and 2012_01_19.

and professionally considered. There has been no hesitation to answer all queries raised by the County. There has also been no substantive documentation submitted from others that changes our findings. I hope that you will find this documentation helpful for your own review. Please feel free to contact me if you have any questions.

Respectfully submitted,

A handwritten signature in cursive script that reads "Sheila McElroy". The signature is written in black ink and is positioned below the typed name.
