Date: 5/23/2014

From: The Northern Salinas Valley Mosquito Abatement District

RE: Pursuant to Penal Code section 933

Honorable Marla O. Anderson,

Pursuant to Penal Code section 933 the following recommendations (R3) were made to the Northern Salinas Valley Mosquito Abatement District (District) by the Civil Grand Jury please find our response below:

(R3) The Monterey County Public Works Department, Monterey County Health Department and/or the Monterey County Board of Supervisors should request the Northern Salinas Valley Mosquito Abatement District to place mosquito traps in Chular to determine if there is a necessity to treat the ponds for mosquito larvae.

The Monterey County Public Works Department contacted the Northern Salinas Valley Mosquito Abatement District about the sewer farm. A discussion ensued pertaining to mosquito and weed control.

The Northern Salinas Valley Mosquito Abatement District then inspected the site for mosquito larvae and found none.

Respectfully submitted,

Ken Klemme
District Manager - Biologist
