FOOD BORNE
ILLNESS

ACTIVE
MANAGERIAL
CONTROL

PLAN REVIEWS

COMPLAINTS

FOOD BORNE
ILLNESS
INVESTIGATIONS

INSPECTIONS –
ONCE/TWICE PER
YEAR

Issue / Efforts

lack of food facility resources to train staff

no local training resources, time consuming, not knowing what to train staff on etc.

we recognized that we needed to address this as our limited inspection frequency and time on site was not sufficient to ensure safe food handling practices to reduce food borne illness

- INSTRUCTORS
- COACHES
- TIMELINE

EVENT DETAILS

- SELF ASSESSMENT
- LEADERSHIP STYLE
- EMOTIONAL INTELLIGENCE
- PROFESSIONAL DEVELOPMENT PLAN
- COACHING
- 7 HABITS
- LOGIC MODELLING
- SYSTEMS THINKING
- PROJECT MANAGEMENT
- 10 ESSENTIAL SERVICES
- PRESENTATION SKILLS
- LEADERSHIP PROJECT (ABSTRACT, OUTLINE, POSTER, POWER POINT)

CHALLENGES

- Operational Priorities
- Instructors
- Budget
- Commitment

PRESENTATION

- Leading by example
- Gaining experience
- Applying skills and knowledge
- Building confidence

“

To be a great leader you must have these three qualities: expertise in your field of practice, have a vision of success and most of all have the ability to communicate that vision to others.

”

Dr. Lew Bauman, County Administrative Officer, Monterey County

Technical expertise alone will not bring about positive results, especially in situations that involve the livelihood and well being of others.

TOGETHER WE GROW

Put first things first.

Sharpen the saw.

TOGETHER WE GROW

Begin with the end in mind.

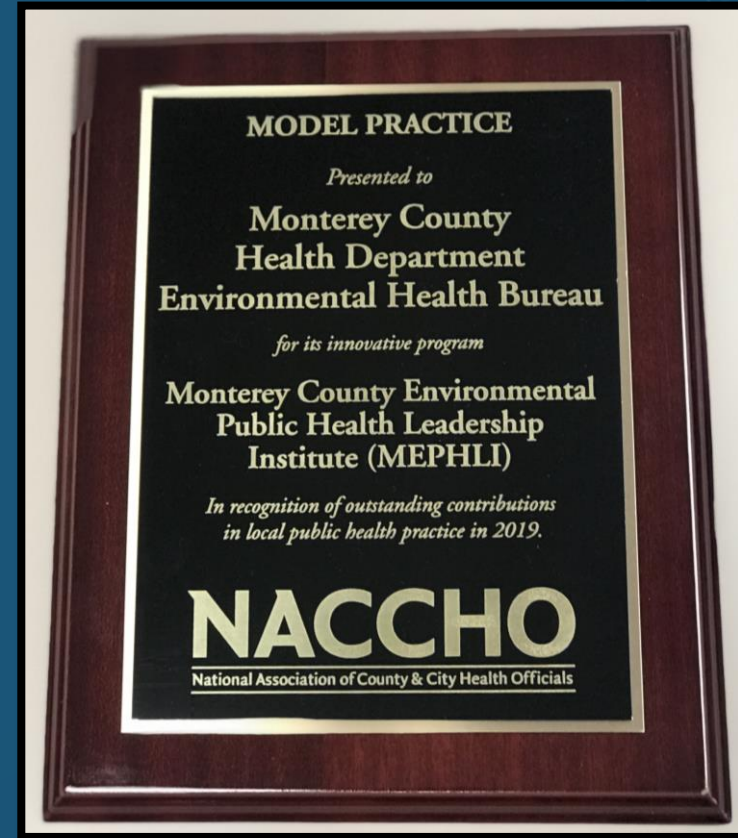

PROJECTS

- Bedbug Control for Shelters
- The Role of a Balanced Budget in the Effective Delivery of Environmental Health Services
