**Narrative:**

On February 7, 2020 at 5:50 a.m., County Communications Dispatch Center contacted the Environmental Health Bureau regarding an outdoor fire that had occurred in the Mercado Mi Rancho produce storage area located at 495 E. Market St. in Salinas. I spoke to Salinas Fire Bureau Chief Keith Emery who was on scene and described to me the approximate 200 gallons of firefighting foam and water applied to a stack of wooden pallets and cedar fence adjacent to the market.

I arrived on scene at 6:15 am and met with market owner Mable Contreras. I identified four production sized produce tubs of fruits and vegetables affected by the firefighting foam that needed to be destroyed. Workers indicated that they would destroy the produce. The remaining firefighting foam was contained on site.

I cleared the scene at 7:20 a.m.

Follow up: I contacted Monterey County Environmental Health Consumer Health Protection Services inspector America Leon who accompanied me to the scene. We arrived at 9:30 a.m. and I showed her the bins of produce in need of destruction as well as the location of the fire.

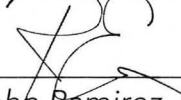

I turned the incident over to Ms. Leon and cleared the scene at 10 a.m..

**Incident Status:**

<input type="checkbox"/> Mitigated No Further Action	<input checked="" type="checkbox"/> Health Department Follow-up Warranted
<input type="checkbox"/> Referred to other Agency or Department for follow-up:
