Narrative: We received a CalOES report about an oil spill by Moss Landing Harbor about 11:10 am on Monday, February 1st. I called Tommy Razzeca, Harbor Master at Moss Landing Harbor, around 1 pm if they are aware of the hydraulic spill from a crane that was reported on CalOES from Monterey Bay Research Institute, he said my call was the first time it was brought to his attention. He stepped out of his office while on the call with me to check out the harbor. Tommy indicated there is indeed a boom on the harbor, and that he would investigate further. I called Tommy back after 30 minutes, he reported that he didn't see any sheen on the water and that the responsible party was conducting the cleanup.

Incident Status:

<input checked="" type="checkbox"/> Mitigated No Further Action	<input type="checkbox"/> Health Department Follow-up Warranted
<input type="checkbox"/> Referred to other Agency or Department for follow-up:
